A McGRAW-HILL PUBLICATION

GENERAL ALPHABETICAL INDEX

for

VOLUME 25

JANUARY, 1953 TO DECEMBER, 1953

McGRAW-HILL PUBLISHING COMPANY, INC.
330 West 42nd Street, New York, N. Y.

Food Engineering

GENERAL ALPHABETICAL INDEX

Volume 25

JANUARY, 1953, to DECEMBER, 1953

A

Accounting

Accounting your way to bigger profits Jan. *80
Cuddahy accounts electronically Sept. *81
Mechanized accounting (e)....July *113

Additives

Food Protective Committee concludes the chemical emulsifiers not yet "safe" (N)....Aug. 183 (ed) Sept. 176
Problems posed by Food Protection Committee judgment on additive (ed) ....Sept. 176
Quality-improving additives: when, into what, and why (table)....Oct. 91
Softener ban by FDA (N).....Jan. 181 (N) June 229

Adhesives—Dry glue cuts adhesive cost. R. L. Muskat.....Nov. *9
Advertising—Word of explanation..Jan. 186
Agitators—Agitating sterilizer speeds heat penetration in large cans (charts) ....Feb. *70

Air conditioning

Continuous air dehumidification halves batch drying time of vitamin powders. E. W. Gifford.....Nov. *129
Egg assembly plant completely air-conditioned (A) .....June *193
Food companies pioneered in the use of "engineered" atmospheres Oct. *131
One fan—two functions. R. P. Korn June *11
Temperature-humidity control in frankfurter department. DeVaux & Jackson .....Jan. *13
Unit air conditioner has improved spray unit (e).....Feb. *16
What's new in air conditioners..Mar. *88

Air filters and heating stations provide pure atmosphere in Wisconsin cheese plant. Truman Torgerson May *129

Air pollution—Cannery has air pollution problem .....Aug. 175
Oxidizing-catalyst unit in exhaust stack curbs fumes from coffee roaster .....Aug. *63

Aluminum boom for harvesting (e)..May *103
American Management Assn.—National Packaging Conference (N)...June 230
American Meat Institute—Exhibitors and floor plan .....Sept. *99
New machines at show.....Nov. *92
Report of convention (N).....Nov. 196

Amino acids—Inhibiting effects of amino acids upon bacteria in cream-custard pastries (A) .....Nov. 155
Anti-freezes—corrosion inhibitors (A) July 166

Antioxidants

Butter rancidity prevented by anti-oxidant (P) .....Oct. 203
Conidendrols are effective in stabilizing edible fats (A).....Jan. 154
FADA approves three antioxidants for candy (N) .....Aug. 183
Frozen poultry protected by anti-oxidant coating (A).....July 158
Gallic aid esters as antioxidants for fats (N).....Dec. 195
Osage oranges contain antioxidants (A) .....Sept. 198

Apples

Carbon dioxide control by cold diffusers cuts apple storage costs. Frank Kedenbur Jr.....Mar. *126
Color grading by electronics. Deroiser & Billerbeck.....Sept. *52
Fission vs food (N).....Feb. *231
Savings in handling (N).....Oct. 253
Spiced apple butter formula....Jan. 162

Arc-rod cuts masonry materials (e) May *102

Asparagus—Cutter for asparagus is improved. Jordan & Davis.....Mar. *9
Washed with steam agitation. Jordan & Davis .....May *5

Automation

Case-handling hurdles cleared by automation. John Shinn.....July *67
Control of conversion of liquid vegetable oils to solid fats by hydrogenation. Force & Elliot....June *54
Duquesne Brewing Co. cuts handling with automation. A. V. Gemmill May *80
Flowsheet for aseptic canning control involves automatic sequencing Oct. *102
Food automation nears. L. E. Slater Dec. *73
Handling system dumps avocados, scales them, records weights. C. R. Havighorst .....Apr. *64
Now a force in processing.....Oct. *98
Omar Inc. takes strides towards automatized baking. L. E. Slater..Dec. *60

Awards

Fiber boxes for foods take many awards .....May *148
Food Engineering Achievement award goes to Geo. A. Hormel & Co. for hog-immobilizing process.....June *43
Food Engineering Award goes to G. A. Hormel & Co. (N) May 202. Aug. 183
IFT presents awards (N).....June *229

B

Baby food

Cereal preparation streamlined..Feb. *60
Italy regulates baby food (N)..Nov. 197
Revamped labels aimed at mothers Dec. *144

Bacteria

Amino acids inhibit bacteria that cause food poisoning from cream-custard pastries (A).....Nov. 155
Aureo, oleo and cathode rays for better meats, fish (N).....Aug. 184
Custard fillings preserved with added antibiotics (A) .....Sept. 193
Detergents effective in removing mold from fruit. R. D. Haynes & others .....Mar. *87
Gamma radiations sterilize food wrappers. Kempe, Graikowski & Brownell .....Nov. *55
Gas-forming bacilli in canned foods (A) .....Feb. 196
Gruyere cheese anaerobic bacteria retarded by the antibiotic nisin (A) .....Jan. 152
Investigating bag-borne bacteria. W. L. Owen.....Jan. *57
Lactic bacteria detection (A)..Aug. 153
Lactic bacteria evaluated (A)..May 166
Mold growth in bakeries.....Sept. 205
New bacteria spotter. C. P. Burke Sept. *45
No lethal freezing rate for C. botulinum .....Sept. 204
Subtilin plus mild heat does not control spoilage in milk (A)....Apr. 208

Baffles stop noise (e).....Aug. *111

Bags

Automatic unit bagging giblets (e) Nov. *109
Bag flattener (e).....Sept. *163
Bag making machine has device that sorts, stacks, counts bags (e) May *113
Cellophane bags with tear-tapes (e) Aug. *112
Closing machine for bags (e)...Oct. *189
Divided polyethylene bags.....Oct. *200
Empty feed bag sterilization pays its way .....June *51
Insecticide treated bags contaminate the contents (A).....Aug. 153
Investigating bag-borne bacteria. W. L. Owen.....Jan. *57
Peeled potato bag.....Sept. *186
Polyethylene poultry bags....Mar. *146
Wet-strength bags used to ship iced corn .....Aug. *140

Bakeries and Baking

American Society of Bakery Engineers discuss new ingredients (N) Apr. 242
Amino acids inhibit bacteria that cause food poisoning from cream-custard pastries (A).....Nov. 155
Baker freezes surplus goods to assure deliveries on a 6-day basis. Herman Tyor .....May *64
Bakery unit (e).....Aug. 107
Baking in closed container (P)..Mar. 161
Batter pump increases oven output. C. D. Grennan.....Aug. *9
Bread loaves following heat absorbing pan, not scorched after production interruption .....Jan. 11
Bread-pan greaser adapted for rolls by addition of a spring.....Jan. *66
Breads—hearth baking goes modern. J. V. Ziemba.....Jan. *90
Bulk handling ingredients fluidizes baking flowsheet .....Dec. *118
Burry Biscuit Co. adds one production line to old five; increases production a third. Burry & Wood June *48
Butter cookies become too moist in summer .....Jan. 162
Cakes with low-sugar formulas improved by adding dried whey (A) Aug. 153
Chicago biscuit plant shows advanced pattern of innovations. F. W. McCarthy.....Aug. *57
Chocolate icing for cakes. O. L. McGee .....May 172
Consumers prefer cakes with butter, bread made with low-extraction flour (A) .....Jan. 149
Continuous-oven control (Duration-Adjusting-Type) bakes better products and saves fuel. R. N. Brey Jr. .....July *62
Cookie, coconut filled.....Jan. *138
Cookies with child appeal.....June *188
Custard fillings preserved with added antibiotics (A) .....Sept. 193
Dough-trough crank loss prevented by safety device. Samuel Rubin Jan. *9
Foil laminated tray to bake in..Apr. *196
Frozen Brownie dessert.....May *149
Frozen deep-dish pies.....Aug. *144
Frozen waffles .....Jan. *141
Ginger bread and devil's food cake formulas .....Dec. 192
Gum type stabilizers.....June, *105
Ham and cheese-flavored cracker Feb. *188
Icing depositer (e).....May *111
In-can bread baking perfected. D. N. League .....May *86
Know-how in processing modern chocolate products .....July *96
Lard improvements make it successful for baking cakes, pies and bread. L. E. Slater.....Sept. *72
Leavening action in packaged cake mixes .....Nov. 179
Leavening agent for baking....Dec. 113
Machine melts shortening and distributes it to mixers or greasers (e) .....Mar. *103
Magnets speed return of pan lids Nov. *11
Moisture content of cake flour governs mix keeping quality (A) Nov. 155
Mold growth problem.....Sept. 205
Newton bar, two flavored.....Oct. *200
Omar Inc. takes strides towards automatized baking. L. E. Slater Dec. *60
Pan greaser (e).....May *101
Pan greaser (P).....Sept. 193
Partially baked rolls.....May 180
Pie fillings output quadrupled. Richard Prince .....Feb. *68
Pies with weepy filling.....Aug. 177
Pneumatic conveying system to handle flour in small bakeries. E. T. Slackford .....Apr. *69
Poppy seed filling for rolls....Sept. 211
Pump forces jelly spread on cake. C. D. Grennan.....July *7
Pumpkin-pie spice formula....Aug. 171
Retail prepared cake mixes improved with emulsifiers (A) .....Dec. 164
Roll panning operations required 14 men, new setup takes 4, output increased .....Jan. *64
Teething biscuits .....Mar. *145
Test for egg performance in cake mix .....June 218
Twin bakery quadruples output in seven-phase advance. J. V. Ziemba Nov. *72
Twin rolls turned out on machine (e) .....Nov. *103
Wafers to be filled for canapes..July *144
Whipping emulsification cuts costs, raises quality. Crossland & Beasley .....June *77

Bananas—Better handling—better fruit. J. V. Ziemba .....Aug. *90
Labeling bananas .....Oct. 226

Banding machine (e).....Apr. *169
Banding machine with electric eye (e) Nov. *101

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Batch operations—Quality batches figured by meat packers. Armand Belanger (charts) ..... Feb. *58
Batteries—Charging aids. H. F. Davis ..... Mar. *11
No bending of battery lift-straps. Dec. *7

Beans

Bean cleaner will remove clay.. May 172
Chili bean mixture ..... Feb. *192
Clay lumps in beans ..... June 211
Dark brown beans in toamto sauce ..... Feb. 211
Steam cleaning bean snippers. Oliver Bruno ..... July 13

Beer

Adding copper to barley cuts malting losses (A) ..... Sept. 196
Catalase plus ascorbic acid prevent oxidation of beer (P) ..... June 204
Cartoning systems speed brewers' half-dozens ..... July *131
Characteristics of beer protein (A) ..... Sept. 197
Electrochemical method of determining oxygen in beer (A).. Mar. 168
Keeping beer sterile (A) ..... Jan. 158
King size carrier ..... Dec. *144
New beer color measurement (A) ..... Dec. 167
Pabst Brewing increases packaging speeds and fill precision by electronic controls. Glen Cram. June *47
Quaternary ammonium compounds detection in beer (A) ..... Dec. 162
Sources of beer color (A) ..... Feb. 203

Belting

Belts driving refrigeration compressors controlled by detect-a-fire unit ..... Aug. *7
Belt tightener. A. F. Wenske.. Feb. *13
Conveyor belting (e) ..... Feb. *181
Poly-vinyl coating for belts (e).. Jan. 113
Selection and maintenance of rubber conveyor belting. Fred Matheis ..... May *72

Beverages

Accenting flavor of beverages.. June 219
Atlantic City Exposition of equipment ..... Jan. *88
Beef tea in powdered form.... Jan. *140
Bottlers' sugar standards ok'd. H. E. Korab ..... Mar. *82
Canning beverages ..... July 176
Chocolate drink separation.... May 184
Coffee substitute (P) ..... Sept. 198
Cooling requirements can be figured fast. Tyler Hicks (charts).. June *63
Corn sweeteners help processors in many ways. R. F. Cohee Jr.. June *74
Dentists kick food manufacturers in teeth—sweets and soft drinks (ed) ..... Dec. 116
Formulas for beverage powders ..... May 176
Grapefruit beverage base flowsheet ..... Aug. *118
Grapefruit beverage manufacturer improves quality, increases production and reduces costs. V. D. Littlefield ..... Aug. *84
How to nip those beverage contaminators. N. F. Insalata.. Apr. *70
Kitten bottle changed to elephant bottle to streamline production for sales success. W. E. Mankin.. Sept. *60
Know-how in processing modern chocolate products ..... July *96
Liquid flavoring sealed in droplets useful in beverage powders. Georges Wellner ..... Aug. *94
Making good sugar-free drinks. R. M. Sandri ..... May *79
Malt liquor introduced ..... Sept. *185
New quick drink mix ..... May *146
No-deposit, no-return can for beverages ..... May *151
Partioned pallets speed loadings of bottles of various sizes..... Nov. *135
Schweppes quinine water bottled here ..... June *187
Sterilizer for bottled chocolate beverages (e) ..... Nov. *107
Sweden uses naringin in beverages (N) ..... Jan. 182

Bins

Aluminum bins handle dry materials for shipping in trucks and railway cars—report. W. G. Hoskins ..... May *94
Cleaning compounds in handy bins. H. E. Korab ..... Sept. *9
Convert cu. ft. to bu. and vice versa. W. T. Schaphorst ..... Dec. *9
Prunes filled into wooden bins and trucked to plants where fork trucks handle the bins ..... Dec. *83
Black raspberries—pactolytic molds isolated (A) ..... Dec. 153
Blending problem ..... Sept. 206
Blueprint handling made easy with metal forms. C. T. Bowers ..... Feb. *9
Boilers—equipped with air-atomizing burner (e) ..... Jan. *105
Testing boiler efficiency ..... Feb. 219
Boots, neoprene coated ..... Mar. *115

Bottling

Atlantic City Exposition of bottling equipment ..... Jan. *88
Bottle case (e) ..... Nov. *108
Bottle washer (e) ..... Feb. *179
Bottler installs fork truck-pallet system, boosts output, deliveries ..... Jan. 127
Broken glass hazard in bottle washing ended. Lewis Richardson ..... Mar. *5
Capping machine—bottle breakage stopped by piece of rubber. A. P. Bullottta ..... Mar. *7
Corn syrup line streamlines filling, closing and casing operations. I. C. Miller ..... May *61
Dead-plate speeds carboy closing. C. E. Hires ..... May *9
Device frees jars from spouts. A. P. Bullotta ..... Feb. *5
Glass baffle on balcony protects both guests and workers ..... Sept. *13
Interchange of cap-coders speeded. A. P. Bullotta ..... Apr. *9
Kitten bottle changed to elephant bottle to streamline production for sales success. W. E. Mankin.. Sept. *60
Packaging Exposition in Chicago ..... July *83
Pyramid-type paper bottles made, filled link fashion ..... Sept. *48
Robot speeds and eases case, bottle handling at brewery ..... Sept. *67
Runway aids safety in bottling plant ..... Sept. 13
Shifting workers from one bottling line to another every 30 minutes ..... Sept. 7
Sterilizes bottled chocolate beverages (e) ..... Nov. *107
Triple-action operating efficiency at Labatt's new bottling plant. Aug. *74
Unloader (e) ..... Apr. *165

Bread

Automatic bread depanner (e).. Dec. 101
Bread crumbs flavored ..... July *148
Bread loaves following heat absorbing pan, not scorched after production interruption ..... Jan. 11
Continuous bread-dough making in bakery can be controlled from central panel ..... July *69
Crust formation in baking speeds bread staling (A) ..... July 154
Enrichment ruled in Canada (N) ..... Feb. 229
Flavor of bread (A) ..... Mar. 161
Frozen bread may end stale returns (N) ..... May 199
Good white bread from untreated flour (A) ..... Apr. 202
Hearth baking goes modern. J. V. Ziemba ..... Jan. *90
High gluten prevents staling (A) ..... Feb. 197
In-can baking perfected. D. N. League ..... May *86
Natural bread softeners (A)... Aug. 153
Pan greaser (e) ..... May *101
Poly bread emulsifiers (N).... May 204
Polyethylene coated bread wrapper (N) ..... Feb. 229
Problems posed by Food Production Committee judgment on additive (ed) ..... Sept. 176
QMC develops stable whole wheat base ..... Apr. *79
Skim milk powder for use in Australian bread (A) ..... May 156
Softener ban by FDA (N)..... June 229
Softener ban upheld (N)..... Jan. 181
Stale bread exonerated (N).... Sept. 215
Staling checked by fractionating flour into gluten and starch (N) ..... Dec. 195
Staling problem ..... July 174
Twin bakery quadruples output in seven-phase advance. J. V. Ziemba ..... Nov. *72

Brewing

Anheuser-Busch removes broken glass and rejects with oscillating trough conveyors ..... Dec. *96
Automation cuts handling in Duquesne Brewing Co. A. V. Gemmill ..... May *80
Cartoning systems speed brewers' half-dozen ..... July *131
Continuous drying of hops (P).. Oct. 209
Economical filtration of hops and trub (A) ..... Oct. 209
Enzymes in malting (A)..... Jan. 156
Labatt's new bottling plant shows triple-action operating efficiency ..... Aug. *74
Malt kilning cost reduced by heavier load, slower drying (A)..... Apr. 202
Malt modification (A)..... Apr. 206
Master Brewers reveal innovations (N) ..... Jan. 182
Model waste-disposal plant for Colorado brewery. Frank Pitman ..... Nov. *67
New tub construction cuts lautering time (A) ..... Dec. 156
pH control ups quality, boosts process yields ..... Mar. *66
"Pint-size" brewery (N)..... Mar. *189
Robot speeds and eases case, bottle handling ..... Sept. *67
Schaefer plant makes sure plant is sterilized with chlorinated rinse ..... Nov. *69
Schlitz Brewing defeats dust in grain elevator. L. E. Slater.. Apr. 61
Show place is safe place. Renner & Buggins ..... Jan. *74
Ultrasonic brewing. E. D. Stewart ..... Apr. 183
Ultrasonic equipment in cooking operations at brewery in Germany. G. W. Schroeder ..... Feb. *48
Ultrasonic vibration increases hop extraction (A) ..... Apr. 204

Butter

Anti-churn timer. Joe Peterson ..... Jan. *7
Antioxidant inhibits rancidity in butter (P) ..... Oct. 203
Continuous buttermaking by German machine is successful in Indiana dairy ..... Feb. *47
Enzymes responsible for rancidity in butter (A) ..... Oct. 203
Gasoline powdered trucks with special exhaust to kill fumes, handle dairy foods in unventilated basement ..... Dec. *95
Lauric acid in butterfat isolated (A) ..... Dec. 153
Machine cuts, wraps butter patties (e) ..... Jan. *100
Non-stop butter whipping (N).. May 199
Vegetable fats in butter spotted new fast way (N) ..... June 232

C

Caking problem ..... Aug. 173
Calculator (e) ..... Dec. 105

Canning and preserving

Agitating sterilizer speeds heat penetration in large cans (charts) ..... Feb. *70
Animal-fat tin plating (N)..... July 190
Aseptic canning control flowsheet involves automatic sequencing.. Oct. 102
Aseptic canning improves corn.. Feb. *74
Automatic retort loader (P)... Apr. 201
Automatic unit fills beans into cans (e) ..... July *111
Baby cereal preparation streamlined ..... Feb. *60
Bacterial populations in canned beef (A) ..... Dec. 161
Baked beans have appetite appeal label ..... Aug. *142
Barbecued pork canned..... July *146
Better pectins—they improve many processed foods. G. H. Joseph ..... June *71
Beverages canned ..... July 176
Bread baking in-can perfected. D. N. League ..... May *86
Can cooling improvements..... May 186
Can injury in accumulator prevented by magnet. R. R. Williams, Sr. ..... Nov. *13
Canners view what's new at Chicago show ..... May *88
Canning insert with show guide ..... Feb. *69-112
Canning vegetable soup..... Aug. 173
Case-rotator for turning canned milk. A. L. Center..... Nov. *11
Checking jar leakers..... Dec. 186
Cherries turn dark..... Aug. 174
Chili-hot bean formula..... July 172
Continuous sterilizer for sealed cans of food (P)..... Nov. 158
Controls in canning for higher gains in quality. L. E. Slater..... Feb. *85
Corn flowsheet for canning cream style corn ..... Feb. *102
Corn sweeteners help processors in many ways. R. F. Cohee Jr...June *74
Danish canned ham—how they put that quality into the ham.... Dec. *127
Dark brown beans in tomato sauce ..... Feb. 211
Dehydrated soup mix improved by comminuting. A. C. Rauch.. Feb. *97
Dietetic soups ..... June *188
Fill problem—conveyor will help ..... Dec. 182
Fish chowder canning..... Nov. 186
Frozen chicken a la king sauce curdles ..... Feb. 216
Gas-forming bacilli in canned foods (A) ..... Feb. 196
Gerber's ten improvements in glass-jar packaging lines curb interruptions. I. C. Miller..... Aug. *66
Green Giant's fifty years of canning progress. L. E. Slater..... May *68
Inside of cans blacken..... July 180
Insulating for food quality and savings. M. F. Allen..... Sept. *62
Liver paste formula..... July 182
Machine applies container lids, seals (e) ..... Jan. *107
Milk—white crystalline sediment in sweet condensed milks (A). Jan. 152
Mushroom canning flowsheet.. July *126
Mushroom canning—quality at a fast pace. J. V. Ziemba..... July *84
Mushrooms in sauce..... Feb. 191
Natural spices add much more than flavor. J. J. Frank (table)... June *78
No-deposit, no-return can for beverages ..... May *151
Oyster stew in cans..... Apr. *197
Paint will tell whether cans are cooked ..... June 159

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Pea canning plant transformed to top-rank quick freezing. Lamb & Havighorst ..... Jan. *68
Pea-freezing flowsheet ..... Jan. *118
Pea soup formula ..... July 180
Pie pan can for beef pot pie... Nov. 147
Pimento canning. E. D. White.. Sept. *64
Pineapple canner raises production (N) ..... Sept. 216
Pizza pie ingredients canned... Apr. *194
Pork cut in pieces dispensed in cans Oct. 228
Poultry canning—what to do with skins ..... Dec. 186
Proportioner for mixed vegetables. Albert Schuchardt ..... Feb. *11
Quality fruits with corn syrup. E. H. Wiwgand ..... May *131
Re-use of water halves cannery consumption (A) ..... Apr. *201
Round-flaring can uses plastic liner (e) ..... Mar. *115
Soft X-ray sterilization of canned powdered milk (N) ..... Apr. 244
Soup in frozen form ..... Mar. *146
Sour cream separation in packing herring fillets. A. S. Levine.. Mar. 175
Starches tailormade for users. T. A. White ..... June *95
Sterile coffee concentrate (P).. Mar. 168
Sterilization of canned food through advanced thermal engineering. C. R. Havighorst ..... Feb. *76
Sterilization, storage protects non-acid foods (A) 196
Sterilizes can seams separately to hot-holding time ..... Mar. *67
Strained egg yolk product ..... Aug. *143
Struvite in fish canning stopped with new techniques. McFee & Swaine ..... Dec. *67
Stuffed olives in cans ..... May *144
Tomato-paste process improved new idea ..... Feb. *73
Tomato soup manufacture ..... Sept. 206
Tuna canning flowsheet ..... Feb. *83
Tuna cannery moves from ship to can at Terminal Island, Calif. Feb. *81
Tuna and noodles canned together July *144
Unretorted crates caught by device. Tom Krainik ..... Jan. *11
Whole fresh milk canned (P).. Nov. 162
Wire belt aids brining in cans of vegetables. John Mattick..... Dec. *5
Capper, vacuum (e) ..... Sept. *159
Carbon tetrachloride—Struvite in fish canning stopped with new techniques. McFee & Swaine..... Dec. *67
Carotene—Preparation of carotene concentrates from dehydrated alfalfa meal (A) ..... July 156
Case-rotator for turning canned milk. A. L. Center..... Nov. *11
Catsup see Sauces
Cauliflower shipping savings..... Jan. 185
Celery—quick cooling cuts fresh vegetable losses. C. E. Wright...Jan. *94
Cement, a component in a mineral building material ..... May *109
Cement for wet-plant floors (e).... Feb. 181
Centrifuging in food industries..... Oct 149

Cereals

Barley germination influenced by drying (A) ..... June 196
Heating whole wheat base solves storage problem (A)..... July 158
Lipase activity in oats (A).... Jan. 156
Malt kilning cost reduced by heavier load, slower drying (A)..... Apr. 202
Preparation of carotene concentrates from dehydrated alfalfa meal (A) ..... July 156
Chain, riveted roller (e)..... May 117
Chains hung on racks. James Owens Feb. *7

Cheese

Cheddar cheese handling simplified by new cylindrical press and retaining hoop. R. R. Haugh.... Nov. *88
Cheddar cheese making speeded (N) ..... June 229
Cheddar cheese making speeded with new process ..... Aug. *125
Cheese-flavored base..... July 144
Cottage cheese ..... Mar. *144
Cottage cheese quality related to bracetyl content (A)..... Dec. 153
Fortified cheese wheys support yeast growth (A) ..... July 154
Fresh cheese making. A. V. Gemmill Dec. *78
Gruyere cheese anaerobic bacteria retarded by the antibiotic nisin (A) ..... Jan. 152
Hogshead cheese specially packaged July *142
No uniformity found in cheese crystals (A) ..... Oct. 203
Oil between fold-layers to protect cheese package (P)..... Nov. 162
Package engineering pays 207% C. R. Havighorst ..... Apr. *90
Prepackaged sliced cheese..... May *146
Quick melting cheese..... May *150
Slow cheese starters (A)..... Oct. 203
Sodium hexametaphosphate not beneficial to frozen cottage cheese (A) Nov. 162
Swiss cheese bacteria vs copper in milk (A) ..... Feb. 201
Unit air filtration and heating stations provide pure atmosphere in Wisconsin cheese plant. Truman Torgerson ..... May *129
Whey handling speeded by glass pipes ..... Mar. *96

Chemicals

Food Protective Committee of National Research Council concludes the chemical emulsifiers not yet "safe" (N) ..... Aug. 183
Problems posed by Food Protective Committee judgment on additive (ed) ..... Sept. 176
Triple challenge on chemicals in foods (ed) ..... Aug. 116
Chemicals see also Antibiotics
Cherries—Frozen cherries ..... Janfl *141
Turn dark ..... Aug. 174
Chicago Instrument Show reveals perfection of mineaturization and electronic brains ..... Dec. *73

Chocolate

Chocolate drink separation.... May 184
Coating applied by miniature dipper machine abolishes hand dippers Nov. *131
Controlling chocolate temper.. July 171
How to add lecithin to chocolate mass (A) ..... June 200
Improved chocolate melter (P)..Mar. 166
Know-how in processing modern chocolate products ..... July *96
Making chocolate syrup..... Nov. 183
New split-degree tempering for uniform-quality chocolate goods. Neilson & Sheffman..... Dec. *59
Stabilizing chocolate syrup.... Sept. 202
Chop block (e) ..... Jan. *113

Citric Acid

Exchange Lemon Products produces citric acid from lemon byproducts. Holton & Havighorst ..... June *58
Flowsheet of citric acid from lemons June 162
Production by submerged culture (A) Feb. 198

Cleaning

A-tracers gage cleaners in new research lab (N) ..... July 193
Advances in food-plant sanitation in the past 25 years. Keith Fitch Oct. *92
Asparagus washed with steam agitation. Jordan & Davis..... May *5
Bath containing wetting agent aids in cleaning berries (A)..... Aug. 156
Benefits of cleaning pipelines in place. R. B. Parker & others (tables ..... Jan. *82
Bread pan cleaner (e)..... July 117
Cleaning compounds in handy bins. H. E. Korab ..... Sept. *9
Disinfectant cleaner (e)..... Aug. *115
Floor cleaner (e)..... Oct. *194
Floors kept ship-shape. A. L. Sodergreen (table) ..... Nov. *70
How to nip those beverage contaminators. N. F. Insalata..... Apr. *70
In-place cleaning of stainless steel pipelines. R. F. Holland & others May *75
No rinse cleaner (e)..... Dec. 115
Nuclear "tagging" studies promise better cleaners (A)..... Feb. 230
On modern cleaning techniques.. Apr. 227
Pan washing material (e)..... Jan. 115
Parts table speeds cleaning of jar filler. Morton & Nixon..... Sept *13
Pressure jet cleaner (e)..... Aug. *111
Shifting a mat cuts clean-up time. C. Filbert ..... Dec. *11
Sprays put zip in cleaning. Fiske & Tucker ..... June *52
Steam cleaning bean snippers. Oliver Bruno ..... July 13
Steam cleaning machine (e).... Oct. 187
Dec. *111
These streamlined practices cut packers' cleaning costs. Tucker & Fiske ..... Sept. *91
Truck engine cleaning eased by mobile crane. James Owens.... Apr. *5
Unit washes cases (e) ..... Dec. *103
Vacuum cleaner (e)..... Sept. *160
Washer for fruit and vegetables improved. Charles Bowman..... Sept. *8
Washing and peeling of raw materials ..... Oct. *155
Closing machine for bags (e)..... Oct. *189
Clothing to be worn by truck operators in frozen food warehouses.... Dec. *9
Clutch, torque-limiting (e)..... Sept. *167
Coat, laboratory (e)..... Aug. *109

Coatings

Antioxidant containing coating protects frozen poultry (A)..... July 158
Improved coating operations.... Oct. *181
Plastic coating reduces insulation maintenance (e) ..... Apr. *171

Coffee

Bag-form quick coffee boasts brewed flavor ..... Apr. *75
Bar-form quick coffee sold years ago. S. H. Beaman ..... Aug. 133
Continuous roaster (P)..... Dec. 154
Electronic sorting assures uniformity for smoother blends..... Dec. *70
Flowsheet for instant-coffee processing ..... Nov. *118
Oxidizing-catalyst unit in exhaust stack curbs fumes from coffee roaster ..... Aug. *63
Sterile coffee concentrate (P)...Mar. 168
Substitute for coffee (P)..... Sept. 198
What makes good soluble coffee. W. C. Winokur ..... Nov. *76
Colloids—Refined guar gum..... Dec. 116

Colors

Benefits high with engineered plant colors. Faber Birren..... Sept. *45
Color grading by electronics—apples in Indiana. Derosier & Billerbeck, tomatoes in California. T. J. Smith ..... Sept. *52
Colorimeter (e) ..... Sept. *169
Efficient color checking device. Dave Eaikin ..... Nov. *9
Comminuting-disintegrating progress Oct. *157

Concentration

Bag form quick coffee boasts brewed flavor ..... Apr. *75
Citrus concentrates fortified by orange oil to six-fold density (A) May 164
Citrus frozen concentrate mishandled and tested to assure quality after as well as before. C. H. Brokaw ..... July *94
Citrus processors to make "1-to-five" juice (N) ..... July 191
Frozen citrus concentrates degraded by flash-heat treatment (N)..May 203
Grapefruit beverage manufacturer improves engineering, improves product and reduces costs. V. D. Littlefield ..... Aug. *84
How frozen concentrated orange juice compares with fresh juice. Zinn & Bien (charts) ..... May *127
Non-frozen fruit drinks..... Mar. *144
Puffed powder from fruit and vegetable juices. Strashun & Talburt Mar. *59
Concrete and other masonry materials cut with electric arc-rod process (e) ..... May *103
Condensation of moisture on ceiling Nov. 183
Conduit, electrical (e)..... May *115

Confectionery

Belt-line candy bar production flowsheet ..... May *120
Better pectins—they improve many processed foods. G. H. Joseph June *71
Candied apples ..... May 176
Chocolate coating applied by miniature dipper machine abolishes hand dippers ..... Nov. *131
Controlling chocolate temper... July 71
Dentists kick food manufacturers in teeth—sweets and soft drinks (ed) Dec. 116
Dolls, candy-filled ..... Nov. *146
Exploding chocolate creams.... Nov. 184
F&DA approves three antioxidants for candy (N) ..... Aug. 183
Fat bloom on chocolate controlled (A) ..... July 153
Foam-candy continuously produced by new machine which diffuses air into syrup ..... Feb. *56
Fudge production doubled by improved candy-handling techniques Jan: *87
Heat-conditioned chocolate..... Aug. *142
Improved coating operations.... Oct. *181
Improvements in the major forming operations ..... Oct. *175
Know-how in processing modern chocolate products ..... July *96
Licorice—its food uses mount.. Aug. *82
Making gum type candies. F. M. McIntire ..... Dec. 192
Mars candy bar making lines telescoped process time, contracted process space and enhanced quality. L. E. Slater ..... May *57
Marshmallow, semi-liquid ..... Sept. 211
Mercoid switch operates gates limiting feed to scales. R. M. Murray Jr. ..... July *11
National Confectioners Show (picture feature) ..... Aug. *70
New split-degree tempering for uniform-quality chocolate goods. Neilson & Sheffman..... Dec. *59
Nougat formula ..... Aug. 175
Popsicle filler ..... Feb. *53
Puffs foods continuously in special vac process. I. C. Miller..... Dec. *68
Radiant heat improves enrobing June *11
Rubber pads cut candy breakage Feb. *13
Sealed-in flavor in droplets of flavor oil. George Wellner ..... Aug. *94
Southern confectionery revitalized production lines for variety by flexibility. E. D. White..... Feb. *67
Starches tailormade for users. T. A. White ..... June *95
Streamlining gets Vernell's more output with less shifts. Ray Bloomberg ..... June *63
Synthetic vitamin A aids food fortification. Bauernfeind, Rokosny & Siemers (table) ..... June *81
Uniformity control trims costly variation losses. E. D. White...Mar. *80

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Wired heat aids hard candy making Aug. *9

Construction

Change in number of food establishment by divisions of industry, 1929-1947 (table) ..... Oct. 80
Fewer and bigger plants—chart tells vital story (ed) ..... June 160
Food plant of the future ..... Oct. *82
Lightweight, mineral building material ..... May *109
Self-supported shell enveloped by cellular-glass insulation blocks in new ice cream freeze-room. W. E. Sprinkman ..... Dec. *86
Seven "musts" in sanitary-plant layout. H. L. Stackhouse ..... Mar. *68
Yeast plant in England ..... Dec. *80

Consumption of food

Economics of technical progress (charts) ..... Oct. *72-81
New and improved manufactured foods (ed) ..... Dec. 116
Per capita consumption of selected fresh and processed foods, 1929-1952 (table) ..... Oct. 80

Containers

Automatic empty carton kick-off ..... July *7
Bands aerate cartons (N) ..... Oct. 253
Bulk-food container (e) ..... July *109
Carton forming and lining machine (e) ..... June *146
Chart tells right carton size in a jiffy. R. R. Haugh ..... Mar. *79
Corrugated box lined (e) ..... Dec. *115
Corrugated paper bin package pays off in Western flour plant. H. A. Herzog ..... July *57
Device marks shipping cases on two sides (e) ..... Nov. *111
Fiber boxes for foods take many awards ..... May *148
Fiber carrier for paper milk bottles (e) ..... Apr. *167
Lids secured by barb perforations. W. E. Reichert ..... Jan. *9
Packaging Exposition in Chicago ..... July *83
Packaging materials ..... Oct. *115
Paper milk containers cased automatically (e) ..... Apr. 158
Positive sealing of liners (N) ..... Mar. 190
Square aluminum containers increase poultry shipping loads. Gene Iannelli ..... Mar. *95
Sterilization of empty fabric bags soon pays its way ..... June *51
Vacuum capper (e) ..... Sept. *159

Continuous processing

Advances in separating operations ..... Oct. *149
Belt-line candy bar production flow-sheet ..... May *120
Chicago biscuit plant has 12 streamlined continuous hand ovens. F. W. McCarthy ..... Aug. *57
Continuous mixing. J. A. Abbott ..... Aug. *64
Converting a batch-type, vacuum-pan cooking process for preserves to continuous one ..... Nov. 179
Feeding continuous process ..... July 182
Foam-candy continuously produced by new machine which diffuses air into syrup ..... Feb. *56
Fresh-pack pickle flowsheet ..... Apr. *174
Fresh-pack pickles have processed-paced quality control. Delos Wallace ..... Apr. *80
Indiana dairyman builds market with continuous butter making machine from Germany ..... Feb. *47
Making dressing continuously ..... Jan. 168
Mars candybar making lines telescoped process time, contracted process space and enhanced quality. L. E. Slater ..... May *57
Mixing advances. Ted Jensen ..... Oct. *169
Radical method of preparing doughs shortens bread making ..... June *60
Continuous proportioning. Lawrence Lowy ..... July *72

Controls

Automatic control becomes a force in processing ..... Oct. *98
Automatic control of pickle pumping into hams (e) ..... Feb. *177
Automatic control panel (e) ..... Mar. *103
Automatic handling system dumps avocados, scales them, records weights. C. R. Havighorst ..... Apr. *64
Automation controls conversion of liquid vegetable oils to solid fats by hydrogenation. Force & Eliot ..... June *54
Automation cuts handling in Duquesne Brewing Co. A. V. Gemmill ..... May *80
Continuous bread-dough making in bakery can be controlled from central panel ..... June *60
Continuous-oven control (Duration-Adjusting-Type) bakes better products and saves fuel. R. N. Brey Jr. ..... July *62
Conveyor switching unit (e) ..... Feb. *170
Corn syrup line streamlines filling, closing and casing operations. I. C. Miller ..... May *61
Data for 3 compressors with 1 recorder. H. F. Davis ..... May *11
Dead-plate speeds carboy closing. C. E. Hires ..... May *9
Electronic controllers regulate cooking in sausage plant. C. W. Schmidt ..... July *80
Electronic hot-spot detector in meat plant fires before they start. Frank DeVaux ..... Sept. *77
Electronic relay (e) ..... Sept. *165
Electronic unit controls fractional hp motors (e) ..... Jan. *103
Electronic unit provides liquid level control (e) ..... June *151
Food automation nears. L. E. Slater ..... Dec. *73
Instrumentation has helped developments in canning. L. E. Slater ..... Feb. *85
Light blink polices remote conveyors. F. A. Wenske ..... May *9
Liquid-level controller (e) ..... Sept. *159
Magnetic amplifier unit controls motor speeds (e) ..... Sept. *161
Mars candybar making uses advanced instrumentation and machine innovations. L. E. Slater ..... May *57
pH control up beer quality ..... Mar. *66
Packaged electronic unit controls machine speeds (e) ..... Apr. *171
Pabst Brewing increases packaging speeds and fill precision by electronic controls. Glenn Cram ..... June *47
Pneumatic remote unit controls motor speeds (e) ..... Feb. *175
Pressure switch mat actuates equipment (e) ..... Jan. *101
Quality control advances ..... Oct. *88
Solenoid valve in pipe prevents wash-water losses in meat plant. J. R. Furguson ..... Nov. *5
Soy bean oil extraction plant prevents flame hazards by instrument detectors ..... Jan. *96
Sugar cane jam-ups prevented by industrial television in Hawaii ..... July *53
Three giant robot-controlled generators turn out vinegar in volume. L. E. Slater ..... July *88
Transmitter for automatic control system (e) ..... Jan. *101
Two feeds to one conveyor—no clogging. A. F. Wenske ..... Apr. *7
Conversion tables put under glass. R. S. Fillers ..... Sept. *7

Conveyors

Aluminum belt conveyor, portable (e) ..... Oct. *189
Automatic seal eliminates dust problem ..... Feb. *167
Automation cuts handling in Duquesne Brewing Co. A. V. Gemmill ..... May *80
Belt conveyor (e) ..... Sept. *171
Belt conveyor carries (e) ..... July *101
Belt conveyor idler (e) ..... Mar. *109
Belt-line candy bar production flowsheet ..... May *120
Belt-side slide halves hand labor ..... Aug. *13
Belt-strip prevents product loss. Jordan & Davis ..... Apr. *9
Boom doubles portable conveyor length (e) ..... Apr. *157
Case-handling in dairy by streamlined system built around automatic stackers. John Shinn ..... July *67
Chain conveyor (e) ..... Sept. *160
Clamps aid conveyor cleaning. Samuel Rubin ..... Feb. *9
Curved roller section (e) ..... Feb. *171
Dairy plant receiving room efficiency. C. V. Hall ..... Apr. *66
Dead-conveyor reporting system. F. A. Wenske ..... July *13
Dead-plate speeds carboy closing. C. E. Hires ..... May *9
Dust-tight unit moves drys in three planes (e) ..... Oct. *191
Elevating conveyor (e) ..... Dec. *109
Fill problem—conveyor will help ..... Dec. 182
"Flopover" curve speeds car loading (e) ..... May *107
Gravity wheel unit with guard rail (e) ..... Nov. *115
Gravity wheel conveyor (e) ..... Apr. *165
Idler trainer for return belt (e) ..... Aug. *101
Incline belt conveyor used between floors (e) ..... Jan. *100
Kraft plant glass packaged food is non-stop conveyorized ..... June *62
Light bulk polices remote conveyors. F. A. Wenske ..... May *9
Lowerator-conveyor system (e) ..... Jan. *107
Mars candybar line operation. L. E. Slater ..... May *57
Oscillating trough conveyors removes broken glass and rejects in Anheuser-Busch plant ..... Dec. *96
"Oscillveyors" moves bulk materials in closed housing (e) ..... Nov. *107
Pabst Brewing increases packaging speeds and fill precision by electronic controls. Glenn Cram ..... June *47
Package-type conveyors rented (e) ..... Mar. 109
Pneumatic conveying system efficient for plants buying ingredients in bags. E. T. Slackford ..... Apr. *69
Pneumatic conveying system handles dry ingredients—report. W. G. Hoskins ..... May *94
Pneumatic mover for dry bulk materials (e) ..... Sept. *173
Portable conveyor (e) ..... Jan. *113
June *146
Portable supporting base (e) ..... July *103
Right-angle case transfer. Thomas Bowles ..... Oct. *7
Roller conveyor for pallets. R. W. Garrett ..... Nov. *6
Roller conveyor has nylon bearings (e) ..... Dec. *103
Roller conveyor, portable (e) ..... Mar. *105
Rotary switch serves two different levels (e) ..... Aug. *93
Rules for safe conveyor operation ..... Jan. 9
Selection and maintenance of rubber conveyor belting. Fred Matheis ..... May *72
Silenced by belting pads. Jordan & Davis ..... June *9
Southern confectionery revitalized production lines for variety by flexibility. E. D. White ..... Feb. *67
Transparent belt with photoelectric stations sorts objects such as beans and nuts (P) ..... Nov. *155
Trolley conveyor (e) ..... May *102
Turning mushrooms on conveyor for inspection. Walter Blevins ..... June *11
Two feeds to one conveyor—no clogging. A. F. Wenske ..... Apr. *7
White conveyor belting (e) ..... Aug. 109
Wire belt aids brining in cans of vegetables. John Mattick ..... Dec. *5
Wire belt conveyors. J. F. Reid Pt 1 July *90, Pt 2 Aug. *72

Cooking

Continuous cooker efficiency upped. C. M. Coywood ..... June *5
Frying breaded fish non-stop. J. V. Ziemba ..... Dec. *84
Heat exchanger quiets continuous cooker. Robert Korn ..... Feb. *13
Sausages improved by separating the smoking function from cooking. C. W. Schmidt ..... July *80
Copper in foods ..... Oct. 220

Corn

Aseptic canning improves corn ..... Feb. *74
Canning cream style corn flowsheet ..... Feb. *102
Chili corn chips ..... Jan. *138
Corn oil bottled ..... Jan. 163
Corn sweeteners help processors in many ways. R. F. Cohee Jr. ..... June *74
Frozen corn fritter batter (P) ..... Mar. 170
Lactic acid from corn sugar (A) ..... Jan. 150
Pickled corn-on-the-cob ..... Mar. *148
Quick cooling cuts fresh vegetable losses. C. E. Wright ..... Jan. *94
Shipping corn iced in wet-strength bags ..... Aug. *140
Sterilization of canned food through advanced thermal engineering. C. R. Havighorst ..... Feb. *76
Corrosion—Corrosion inhibitors (A) ..... July 166
Costs—Meat plant is never too old to modernize—4 ways that up output, save dollars. Presen Jessen ..... Sept. *78
Coumarin replaced by protovanol ("C") ..... Sept. 175
Coumarin substitute considered (N) ..... July 189
Couplers for handling trailers (e) ..... June *146
Coupler has emergency disconnect (e) ..... Feb. *177
Coupling, universal (e) ..... Jan. 113
Cuts synthetic cloth, edges ravel-proof (e) ..... Aug. *111
Cutter for asparagus improved. Jordan & Davis ..... Mar. *9

D

Dairy equipment

Dairy company switches to special resin-base coatings with fewer repeats ..... Nov. *127
Innovations in machines aid cost reduction. J. V. Ziemba ..... Apr. *101
Philadelphia dairy introduces warehouse on wheels. I. C. Miller ..... Nov. *86
Receiving room efficiency improved. C. V. Hall ..... Apr. *66
Spray cleaning with hot detergent cuts cleaning time. Fiske & Tucker ..... June *52
Vacuum capper (e) ..... Sept. *159

Dairy products

Antibiotics inhibit starters (A) ..... Mar. 164
Case-handling hurdles cleared by automation. John Shinn ..... July *67
Cobalt 60's toll of vitamins in dairy products (N) ..... Dec. 195
Ion exchange improves dairy products. D. F. Garrett ..... July *61
Sweet spread ..... Apr. *196

Dates

Drying pieces of dates ..... May 178
Fumigation of dates (A) ..... July 167
Pitted, pasteurized ..... Oct. *198
Dehumidification see Air Conditioning

Dehydration

Better dry soups by comminuting. A. C. Rauch ..... Feb. *97
Citrus-peel process flowsheet ..... Mar. *118
Citrus-peel process for making feed. W. H. Harte ..... Mar. *84

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Continuous air dehumidification halves batch drying time of vitamin powders. E. W. Gifford...Nov. *129
Dairy products improved by ion exchange. D. F. Garrett.....July *61
Dried honey-milk (P).....Mar. 166
Egg drying speeded by new enzyme—glucose oxidase. E. G. Snyder..June *89
Enzyme-treated dried eggs. E. G. Snyder .....Mar. 178
Evaporator-dryer load-balance curve ups gelatin output. Kramer & Garono .....Apr. *72
Moisture removal — high-vacuum evaporation sets place.....Oct. *143
Potato dehydration by slow freezing. R. C. Hall (charts).....Mar. *90
Powdered cream in packets....Sept. *186
Powdered spaghetti sauce.....Dec. *142
Powdered spud booms? (N)....Feb. 232
Precooked and dried potatoes..Sept. *186
Puffed powder from fruit and vegetable juices. Strashun & Talburt .....Mar. *59
Selecting and installing vibrators. Frederick Marich .....July *77
Soup mixes .....Feb. *190
Stabilizing dried eggs..Jan. 164, Feb. 221
Syrup mix, powdered .....Feb. *192
Tomato sauce dehydrated premix is three way saver. Barton & Trauberman .....Nov. *79
What makes good soluble coffee. W. C. Winokur .....Nov. *76
Density of liquids measured (e).....May *113

Desserts

Dietetic dessert .....Jan. *142
Formulas for three starch-type puddings .....Sept. 202
Jell-O prepared pudding .....Dec. *144
Liquid flavoring sealed in droplets useful in packaged desserts. Georges Wellner .....Aug. *94
Modifying puddings and fillings..June 213
Triple mixing problem—dessert powders .....Dec. 190
Detergent, perfume bases for.....July 117

Diet

Beliefs on diets for aged discounted by research (N).....July 190
Dietary foods .....Apr. 222
Dietetic dessert .....Jan. *142
Educational promotion .....July *146
High toll of unwise eating (N)..July 193
Making good sugar-free drinks. R. M. Sandri .....May *79
Nutritional study of youngsters 13 to 20 yr. of age (N).....July 194
Dispenser, automatic (e).....July *115
Dockboard (e) .....Jan. *113
Drills—Vertical drill holes assured. C. T. Bower .....Apr. *13
Driver that grips in screw slot. W. F. Warner .....May *13

Drives

Drive assembly has right-angle reducer (e) .....May *102
Gear drive provides intermittent motion (e) .....Jan. *101
Right angle gear drive dustproof (e) .....Apr. *167

Drums

Magnetic drum separators (e)..May *102
Mechanize your materials handling—Illinois Institute of Technology report .....Dec. *133
Plastic liner for drums (e).....Aug. *115
Rapid way to line drums with film. R. P. Korn .....Mar. *5
Dryers of sponge rubber for washed Maine potatoes (A).....Nov. 156
Drying see Dehydration

Dust

Automatic seal eliminates dust problem on conveyor .....Feb. *167
Blow-ring carrier ups dust collector action (e) .....Apr. *159
Cloth-screen dust collector (e)..Nov. *99
Controls ash level by temperature .....Apr. *13
Schlitz Brewing defeats dust in grain elevator. L. E. Slater .....Apr. *61

E

Economics of technical progress (charts) .....Oct. *72-81

Eggs

Air-conditioned egg assembly plant (A) .....June *193
Egg shell determinations (A)....Oct. 204
Enzyme-treated dried eggs. E. G. Snyder .....Mar. 178
Grades eggs by color (N).....Mar. 189
Irradiation of egg magma destroys Salmonella (A) .....Oct. 205
New enzyme—glucose oxidase speeds egg drying. E. G. Snyder....June *89
Soiled eggs store poorly (N)....Feb. 231
Stabilizing dried eggs. Jan. 164, Feb. 221
Strained egg yolk product .....Aug. *143
Trouble with eggs spoiling.....Mar. 180
Electrical connector (e).....May *103
Electrical distribution—How to feed electricity to food plant equipment. K. P. Grenfell .....Dec. *90

Electronics

Cold sterilization facts. W. M. Urbain pt 1 Feb. *45, pt 2 Mar. *77
Color grading by electronics—apples in Indiana. Derosier & Billerbeck, tomatoes in California. T. J. Smith .....Sept. *52
Cudahy accounts electronically..Sept. *81
Device "listens" for insects in stored
Food automation nears. L. E. Slater .....Dec. *73
grain (N) .....Oct. 258
Hot-spot detector stops fires before they start in meat plant. Frank De Vaux .....Sept. *77
Mechanical sorting of nuts by electronic separation. E. Grosz..Aug. *95
Sulfur-spotting "nose" (N)....Oct. 260
Transparent belt conveyor with photoelectric stations sorts objects such as beans and nuts (P)..Nov. *155
Uniformity for smoother blends assured by electronic sorting..Dec. *70
Electrostatics create "flash" smoking-coating. Morse & Pivan ....Sept. *70
Elevators—Buckets on new elevator have hinged bottoms (e).....Feb. *168
Compact bucket elevator (e)....Apr. 165

Emulsifiers

Compact emulsifier employs ultrasonics (e) .....June *147
Emulsifiers for French Dressing..Aug. 177
FPC approves emulsifiers (N)..Feb. 233
New baker's emulsifier (e).....June *159
Whipping emulsification cuts costs, raises quality. Crossland & Beasley .....June *77
Enamel .....Jan. 115

Engineering

Chicago biscuit plant shows advanced pattern of innovations. F. W. McCarthy .....Aug. *57
Ice cream plant gets top efficiency with one-floor straight-line operation .....Feb. *51
Popcorn kept at the same price by improvements in engineering. W. B. Holtz .....Jan. *59
Report on a revolution.....Oct. *69-182
The technical man. R. E. Morse..Nov. 96
Unifies industry .....Oct. *70

Enzymes

Catalase enzyme .....Sept. 175
Deoxygenase enzyme system removes sugars, oxygen (A) .....Oct. 210
Enzyme-treated dried eggs. E. G. Snyder .....Mar. 178
New enzymes "open new doors". E. G. Snyder .....June *89
Sources of bitter flavors in protein hydrolysates (A) .....Jan. 160
Equipment—AMI show displays new equipment for meat packers..Nov. *92

Evaporation

Controls in evaporation system..Feb. *88
Evaporator-dryer load-balance curve ups gelatin output. Kramer & Garono .....Apr. *72
Fruit flavors caught in evaporation process (P) .....Sept. 196
High-vacuum evaporation sets pace .....Oct. *143
Exhaust head for industrial stack to clean up vapors (E).....Apr. *158
Explosions—Soy bean oil extraction plant prevents flame hazards by instrument detectors .....Jan. *96
Expositions—Atlantic City Exposition of bottling equipment .....Jan. *88

Extraction

Advances in separating operations .....Oct. *149
Citrus juice extractor (e).....May *105
Solvent extraction of cottonseeds aids small operators .....Aug. *89
What makes good soluble coffee. W. C. Winokur .....Nov. *76

F

Feed

Citrus-peel process flowsheet...Mar. *118
Citrus-peel process for making feed. W. H. Harte .....Mar. *84
Dry milk supplement makes better pigs (A) .....June 193
Exchange Lemon Products balances multi-product operation by their waste-salvage process. Holton & Havighorst .....June *68

Feeders

Accurately feeds, mixes micro-ingredients .....Oct. 185
Continuous proportioning—catalyst of the automatic plant. Lawrence Lowy .....July *72
Feeding continuous process....July 182
Gravimetric feeder unit (e)....Sept. *163
Scale feeder (e) .....Jan. *111
Selecting and installing vibrators. Frederick Marich .....July *77
Solids feeder (e) .....June *151
Vibrating solids feeder (e).....Dec. *113
Vibratory feeder (e)..Mar. *113, July *107
Volumetric feeder (e) .....July *105
Fermentation—Production of citric acid by submerged culture (A)....Feb. 198
Yeast plant in England is the "last word" .....Dec. *80
Fig-cutting speeded by hydraulic press. Robert Korn .....Apr. *11
Yeasts vs beetles in figs (A)..Nov. 156

Fillers

Attachment on ice cream filling machine (e) .....Feb. *173
Auto-filler for paper milk containers (e) .....Jan. *99
Automatic unit fills beans into cans (e) .....July *111
Bell sounds overflow warning. Lewis Richardson .....Feb. *5
Fill problem—conveyor will help. .....Dec. 182
Can filler (e) .....Aug. *103
Device frees jars from spouts. A. P. Bullotta .....Feb. *5
Fill problem conveyor will help..Dec. 182
Filler speedily changed for size variations (e) .....Apr. *163
Filling machine handles 80 containers per min. (e).....Feb. *173
Fills bags, checks weight (e)..June *153
General Mills plant proves advantages of carton filling with new netweight packaging principle.Mar. *62
Homemade liquid filler. L. P. Money .....June *13
Improves accuracy of volume fill. Edward Schlorer .....Feb. *11
Liquid dispenser (e) .....Jan. *109
Pabst Brewing increases packaging speeds and fill precision by electronic controls. Glenn Cram...June *47
Semi-automatic filler (e).....Mar. *105
Sleeve improves filler operation. R. F. Greenough .....Apr. *11
Vial filler (e) .....Nov. *101

Filtration

Advances in separating operations .....Oct. *149
Counterbalance made safe in wine filter. T. A. Bowles.....Dec. *7
Molecular or millipore filter technique. C. P. Burke.....Sept. *47
Tank-type pressure filter (e)....Apr. *158
Finance—Industry plans more business—more competition (ed).....May 118
Fire protection—Electronic hot-spot detector in meat packers stops fires before they start. Frank De Vaux .....Sept. *77
Soy bean oil extraction plant prevents flame hazards by instrument detectors .....Jan. *96

Fish

"Antibiotic" ice for preserving fish (N) .....Nov. 193
Aureo, oleo and cathode rays for better meats, fish (N) .....Aug. 184
Canning fish chowder .....Nov. 186
"Catch and carry" trout.....Dec. *146
Chilled sea water vs ice for transporting fish (A) .....Oct. 205
Fish cakes .....Sept. 210
Fish flour developed (N).....July 189
Free sugars in muscle cause fish to brown (A) .....Mar. 162
Freezing fish at sea (A).....Apr. 206
Freshness of fish.....Apr. 226
Frozen fish in new form and tailored sizes .....Apr. *192
Frying breaded fish non-stop. J. V. Ziemba .....Dec. *84
Panel scoring proved valid for evaluating stored fish (A).....Sept. 194
Preparation of fried fish frozen..Mar. 182
Quick frozen smoked herring fillets from Scotland .....Mar. *144
Sanitizing a fish plant.....Mar. 174
Struvite in canning stopped with new techniques. McFee & Swaine..Dec. *67
Tuna cannery at Terminal Island, Calif. .....Feb. *81
Tuna canning flowsheet.....Feb. *82
Tuna and noodles canned together .....July *144

Flavoring

Artificial vanilla flavor improved. C. A. Tyler (tables).....Jan. *62
Coumarin substitute considered (N) .....July 189
Fruit flavors caught in evaporation process (P) .....Sept. 196
How frozen concentrated orange juice compares with fresh juice. Zinn & Bien (charts).....May *127
Licorice—its food uses mount..Aug. *82
Monosodium glutamate in frozen foods (A) .....Mar. 170
Natural spices add much more than flavor. J. J. Frank (table)...June *78
New coating process traps full flavor. Georges Wellner .....Aug. *94
Peanuts and peanut products flavor affected by insecticides (A)..June 196
Peel oils preserved by dry ice..Mar. 11
Preventing off-flavors in irradiated food (A) .....Feb. 203
Recovering volatile flavors from fruit juices (N) .....Feb. 229
Saving fruit flavors in making preserves (A) .....Apr. 210
Sources of bitter flavors in protein hydrolysates (A) .....Jan. 160
Sweet potatoes eating quality affected by insecticides (A) .....June 198

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Floors

Floor machine (e).....July *111
Hardwood floors waterproofed. W. A. Free Jr. .....Apr. *9
How to keep floors ship-shape. A. L. Sodergreen (table) .....Nov. *70
Paint on floor in canning plant serves two purposes. W. A. Free Jr...Mar. *7
Regrouting tile floors.....Mar. 178
Resin floor-surfacer (e).....May *117

Flour

American Maize-Products modernizes millhouse with the help of plastic model .....Jan. *93
Cake mix in pouches.....Sept. 185
Cereal milling advance (N)....July 194
Chlorine dioxide as flour improver (A) May 156
Corrugated paper bin package pays off in Western flour plant. H. A. Herzog .....July *57
Dry powder granules measured by micromerograph .....Dec. *71
Gluten aids poor flour (N).....Aug. 183
Insect fragments counted by new color method (A).....Apr. 212
Milk solids in prepared mixes..Jan. 165
Moisture content of cake flour governs mix keeping quality (A)..Nov. 155
New mixes in colorful cartons..Nov. *148
Pancake flour formula.....Oct. 224
Pneumatic conveying system efficient for plants buying ingredients in bags. E. T. Slackford.....Apr. 69
Retail prepared cake mixes improved with emulsifiers (A) .....Dec. 164
Speed-up of insect-fragment count. C. F. Buck .....Jan. *7
Sterilizer for empty feed bags soon pays its way.....June *61
Test for egg performance in cake mix .....June 218
Tubed from truck (N).....Mar. 189

Flowmeters

Flowmeter (e) .....Mar. 99, Apr. *163
Measures liquid flow in pounds (e) July *101
Measuring the flow of a heavy consistency, abrasive food product Apr. 220

Flowsheets

Aseptic canning control involves automatic sequencing .....Oct. *102
Belt-line candy bar production. May *120
Bulk handling ingredients fluidizes baking .....Dec. *118
Canning cream style corn flowsheet Feb. *102
Cheddar cheese flowsheet.....Aug. *125
Citric acid from lemons.....June *162
Citrus-peel process for making feed Mar. *118
Flour handled pneumatically in small bakeries .....Apr. *69
Fresh-pack pickle flowsheet....Apr. *174
Grapefruit quality beverage base Aug. *118
Instant-coffee processing .....Nov. *118
Molecular-modified lard.....Sept. *102
Mushroom canning flowsheet....July *120
Pea-freezing line .....Jan. *118
Tuna canning flowsheet.....Feb. *82
Yeast production .....Dec. *80
Foaming agent (e).....Aug. 115

Food and Drug Administration

Congress passes plant-inspection bill (N) .....Aug. 184
Danger signals flying for federal food law. F. K. Lawler.....Feb. 183
How FDA men inspect a plant. E. L. Holmes .....Nov. *64
Supreme Court decision upsets plant inspection (N) .....Jan. 181
Food, Drug & Cosmetic Act—Changes sought in law .....Mar. 127

"Food Engineering"

Award for achievement in food technology goes to Geo. A. Hormel & Co. .....June *42
Award goes to G. A. Hormel & Co. (N) .....May 202 (N) Aug. *183
Canning insert and show guide Feb. *69-112
Meat special and show guide. Sept. *69-112
25th anniversary issue.....Oct.
Food Engineering Indexes—Jan. 182, Feb. 230, Mar. 190, Apr. 240, May 200, June 230, July 190, Aug. 184, Sept. 216, Oct. 254, Nov. 194 Dec. 196
Indexes to size of multi-unit food plant operations, 1947 (table)..Oct. 80

Food Engineering Reports

Bulk-handling dry ingredients. W. G. Hoskins .....May *94
Ingredient special with IFT show guide .....June *67-114
Report on a revolution in engineering Oct. *69-182
Foremen gaged? (N).....July 194
Forming—Improvements in the major forming operations .....Oct. *175
Formulas—Sausage seasoning formula Feb. 223
Spiced apple butter formula....Jan. 162
Freezing, slow—Better potato dehydrating by slow freezing. R. C. Hall (charts) .....Mar. *90
Freight cars—Plywood car lining away from insulated walls (N)....Apr. 244
Frost scrapers made at low cost. Jordan & Davis .....July *11

Fruit Juices

Apple juice quality (A).....Oct. 203
Citrus concentrates fortified by orange oil to six-fold density (A) May 164
Citrus frozen concentrate mishandled and tested to assure quality after as well as before. C. H. Brokaw .....July *94
Citrus juice can seams sterilized separately to cut hot-holding time Mar. *67
Citrus juice extractor (e).....May *105
Citrus processors to make "1-to-five" juice (N) .....July 191
Concentrated non-frozen fruit drinks Mar. *144
Freezer insulating procedure for warehouse of frozen orange juice Sept. *11
Frozen citrus concentrated degraded by flash-heat treatment (N)..May 203
Fruit flavors caught in evaporation process (P) .....Sept. 196
Grapefruit beverage manufacturer improves engineering, improves product and reduces costs. V. D. Littlefield .....Aug. *84
Grapefruit quality beverage base flowsheet .....Aug. *118
Grape juice from white grapes (A) Feb. 198
How frozen concentrated orange juice compares with fresh juice. Zinn & Blen (charts).....May *127
Juice dispenser aid plan (N)..Feb. 234
Puffed powder from fruit and vegetable juices. Strashun & Talburt Mar. *59
Recovering volatile flavors from fruit juices (N) .....Feb. 229

Fruits

Bath containing wetting agent aids in cleaning berries (A).....Aug. 156
Citrus-peel process flowsheet....Mar. *118
Citrus-peel process for making feed. W. H. Harte .....Mar. *84
Citrus powder (N) .....Jan. 186
Citrus wastes may yield new profit in byproducts (N) .....Feb. 232
Detergents effective in removing mold from fruit. R. D. Haynes & others Mar. *87
Exchange Lemon Products balances multi-product operation by their waste-salvage process. Holton & Havighorst .....June *58
Flowsheet of citric acid from lemons June *162
Moisture content gaged by magnetic-field unit (N) .....Oct. 256
Osage oranges contain anitoxidants (A) .....Sept. 198
Pectin from citrus peel (A)....June 200
Plastic film-lined boxes lengthen storage life of fruit (N)....Nov. 198
Quality fruits with corn syrup. E. H. Wiegand .....May *131
Radioactive test of fruit (N)....July 189
Reefer freight cars with mechanical refrigeration .....July *76
Spray residue on fruit .....Oct. 232
Vacuum cooling of fruits and vegetables (A) .....Feb. 197
Fuel—Carnation Co. approves liquefied petroleum gas for its 21-truck fleet June *56

Fumigation

Device checks fumigation efficiency (N) .....May 201
Instrument checks on fumigant (e) July *117
Low pressure fumigants best for semi-open places (A) .....Nov. 164
Sheets of gas-proof material aid fumigation in storage (A) Aug. 164
Tips on curbing insects in plants. Huge & Holmes .....Sept. *58
Vacuum fumigation of dates (A) July 162
Fungicides—Sorbic acid inhibits molds Aug. 127
Fuses on high motor control are gang-mounted (e) .....Apr. *161

G

Gage for pressure instruments (e)..Jan. *111
Gamma radiations sterilize food wrappers. Kempe, Graikoski & Brownell Nov. *55
Generators, gas or oil (e).....Mar. *105
Germicide (e) .....Sept. *175

Glass containers

Asparagus in glass .....Nov. *149
Checking glass shipments.....Sept. 203
Checking jar leakers.....Dec. 186
Cocktail onions and olives in shaker Feb. *190
Gerber's ten improvements in glass-jar packaging lines curb interruptions. I. C. Miller.....Aug. *66
Kraft plant glass packaged food in non-stop conveyorized .....June *62
Mobile tray-rack avoids jar damage. Isadore Silveria .....Oct. *5
Parts table speeds cleaning of jar filler. Morton & Nixon .....Sept. *13
Glass cutter for laboratory. R. S. Fellers Aug. *7
Gloves, rubber, has plastic coating (e) Jan. *116
Glucose oxidase—a new enzyme—possibilities gaged. E. G. Snyder. June *89
Glucose oxidase system removes sugars, oxygen (A) .....Oct. 210
Glycol—Purification of glycol for use in coconut (P) .....Mar. 162

Grading

Color grading by electronics—apples in Indiana. Desrosier & Billerbeck, tomatoes in California. T. J. Smith Sept. *52
How to cut grading costs on fruits, vegetables (N) .....Sept. 216
More precise grading with new sampling table. Desrosier, McArdle & Miles .....May *92
Purifier grades wheat middlings (e) Dec. *103

Grain

Apparatus separates, destroys insects (P) .....Nov. 164
Automatic sampler (e) .....Mar. *107
Automation cuts handling in Duquesne Brewing Co. A. V. Gemmill .....May *80
Drying cereal grains (A).....May 162
Electronic device "listens" for insects in stored grain (N).....Oct. 258
"Eye" spots sick wheat (N)...Sept. 216
FDA announces grain sanitation program changes (N) .....June 232
Grain drying vs insects (N).....Feb. 234
Massometer measures flow of free-flowing solids (e) .....Nov. *113
Purifier grades wheat middlings (e) Dec. *103
Schlitz Brewing defeats dust in grain elevator. L. E. Slater..Apr. *61
Thermal properties of wheat influenced by moisture (A) .....May 162
Wild rice tamed .....Mar. *94
Grape stemmer (e) .....June *149
Great Britain spurs sales with coronation theme .....May *144

Grinding

Hood directs grinder discharge. Max Hoadley .....Dec. *13
Pivoted shield makes grinder safe. Max Hoadley .....Dec. *13
Size reduction .....Oct. 159
Guar gum as a colloid.....Dec. 116
Gum, quick-dispersable .....Nov. 182

H

Heat exchangers

Control systems "tame" continuous heat exchangers .....Feb. *93
Heat exchanger (e) .....Nov. *111
Plate type (e) .....Aug. *113
Quiets continuous cooker. Robert Korn .....Feb. *13
Heat transfer—Great strides end pot and kettle area .....Oct. *121

Heaters

Cheese plant assured pure atmosphere by air filters and heating stations. Truman Torgerson .....May *129
Forced air units solve heating problems in Libby's 10 acre warehouse Dec. *131
Heat savings easily checked. W. F. Schaphorst .....Sept. *11
Radiant heat on truck floor....Feb. *64
Sterilizer for empty feed bags soon pays its way .....June *61
Wired heat aids hard candy making Aug. *9
Hinged table support. E. W. Holgren June *9
Hoists—Electric (e) .....Sept. *171
Platform hoist (e).....Aug. *101
Homogenizing—Vibration plus pressure feature new homogenizer (P).Sept. 199
Honey—Dried honey-milk (P).....Mar. 166
Honey butter .....Sept. 205
Hoppers—Two-floor discharge from one scale. D. B. Bradshaw.....July *5
Hose, new type rubber (e).....Feb. *168
Hose connections with wire-band (e) July *115
Hydraulic positioning control system (e) Jan. *107

I

Ice—antibiotic ice for fish (N).....Nov. 193
Crusher-slinger for ice (e).....Nov. *109

Ice Cream

Apparatus for making ice cream sandwiches (P) .....May 155
Company expands to add package goods and installs modern equipment. A. V. Gemmill.....Mar. *64

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Corn sweeteners help processors in many ways. R. F. Cohee Jr. ..June *74
Gum type stabilizers.....June *105
Know-how in processing modern chocolate products .....July *96
Low-bed truck with 6-compartment body .....May *135
More states approving substitute ice cream (N) .....Jan. 184
No holding time pasteurization makes progress. F. W. Barber Nov. *62
Popsicle filler .....Feb. *53
Self-supported shell enveloped by cellular-glass insulation blocks in new freeze room. W. E. Sprinkman Dec. *86
Semi-automatic unit for ice cream packaging (e) .....Nov. *105
Sherbet pack .....Jan. *140
Slices of ice cream wrapped or coated (P) .....Dec. 153
Top efficiency with one-floor straight-line operation. A. V. Gemmill Feb. *51
Unit removes sediment for ice cream mix (e) .....June *157
Walk-in truck speeds deliveries of ice cream .....Jan. *129
Indexes see Food Engineering Indexes
India devises new foods (N).....July 193
Infrared—Lamps directed at glue rolls solves humidity problem. D. C. Cornell .....Mar. *7
Sterilizes caps above pasteurized jelly. George Garnatz.....Mar. *9
Ingredient Special Report.....June *67-114
Insect destroying units suspended from ceiling. G. S. O. Smith.....Feb. *7

Insecticides

DDT controls blow-flies (A)....Aug. 162
Flies curbed by chemical baits (N) Feb. 229
Insecticide treated bags contaminate the contents (A) .....Aug. 153
New cockroaches arrive from abroad (N) .....Sept. 216
Tips on curbing insects in plants. Huge & Holmes .....Sept. *58

Inspection of Food

Admit the inspectors! .....Jan. 181
How FDA men inspect a plant. E. L. Holmes .....Nov. *64
Supreme Court decision upsets plant inspection by F & DA (N)...Jan. 181
Institute of Food Technologists (N) Boston meeting .....June *229
New York Section meets (N)....Mar. 189
Show guide .....June 111

Insulation

Glass-fiber pipe insulation (e)..July *109
Glass insulation proved for two uses. Francis Yost .....June *13
Heat insulation for food quality and savings .....Sept. *62
Insulating board (e).....Oct. 193
Reflective insulation in fruit warehouse (A) .....Nov. 166
Integrating instrument for graphic panel use (e) .....Nov. *100
Ion exchange—Dairy products improved by ion exchange. D. F. Garrett July *61
Irish moss—Gum type stabilizers..June *105
Modifying puddings and fillings June 213
Iron—taking iron out of wine.....June 220

J

Jams and Jellies

Air bubbles in jellies .....Oct. 230
Better pectins—they improve many processed foods. G. H. Joseph June *71
Converting a batch-type, vacuum-pan cooking process for preserves to continuous one.....Nov. 179
Crosse & Blackwell chalking up safe man-hours by the millions. A. B. Ott .....Nov. *64
Dark pectin problem.....Feb. 215
Dietary jellies .....Apr. 222
Evaporator-dryer load-balance curve ups gelatin output. Kramer & Garono .....Apr. *72
Gelatin from collagen (A) .....Jan. 149
Guava jam and jelly difficult to make .....Apr. 225
Pectin problem .....Apr. 228
Saving fruit flavors in making preserves (A) .....Apr. 210
Spiced apple butter formula....Jan. 162
Jet cleaner (e) .....Mar. *113

K

Kettles

Inside lip ends kettle drip. Tony Aloi .....May *11
Preventing kettles from scoring Sept. 210
Three-leg stands for kettles. D. Bradshaw .....Mar. *13
Trap-per-unit soon pays for traps Dec. *7

L

Labeling

Automatic labeler (e).....June *149
Brewery wins label competition. Dec. *145
Innovations in machines aid cost reduction. J. V. Ziemba.....Apr. *101
Kraft board label for bags. F. A. Wenske .....Jan. *13
Roll-type labeler (e).....Apr. *159
Thermoplastic labels applied to packages (e) .....Aug. *100

Labor

Prepare to raise wages, recession or not (ed) .....July 118
Preventive maintenance. G. J. Martin. pt 1 Mar *73, pt 2.....Apr. *83
Rest rooms for employees.....Nov. 186
Shifting workers from one bottling line to another every 30 minutes Sept. 7
Value added per production worker and per plant for divisions of food industry, 1929-1947 (table)...Oct. 81
Lactic acid from corn sugar (A)....Jan. 150
Lactic acid from molasses (A)....Dec. 156
Lactic bacteria evaluated (A).....May 166
Ladder made safe.....Dec. *11
Ladders, walkway-equipped (e)....Sept. 165

Law and Legislation

Bill to permit FDA inspectors to enter plant to inspect passed (N) Aug. 184
Danger signals flying for federal food law. F. K. Lawler.....Feb. 183
Food, Drug & Cosmetic Act changes sought .....Mar. 127
Mellorine scores 4 to 2 in recent state rulings (N) .....Oct. 253
9 tipoffs from the legal scoreboard. L. T. Parker .....Aug. *97
6 pointed legal Q's and A's. L. T. Parker .....Feb. *65
Lettuce, prepackaged .....Nov. *146
Level of bulk-materials indicated (e) Nov. *115
Licorice—its food uses mount.....Aug. *82

Lights and Lighting

Black-light hand lamp for inspections (e) .....June *157
How store lights fade pickles. Fabian & Baldwin .....June *61
Luminaire for low-ceiling rooms (e) Feb. *179
Portable lamp for grading (e) Oct. *193
Skylight lighting increased visibility, plastics sheets cut glare. W. A. Free Jr. .....May *11
Warning when train's in plant. A. W. Machamer.....Oct. *5
Liquids—Regulating liquid flow....Oct. 230
Loading dock shelters (e).....May *115
Loading ramp unit (e).....Mar. *101

Lobsters

Frozen lobsters in handy pack..Feb. *188
Inside of cans blacken.....July 180
Rock-lobster-tail packed at sea, Australia (N) .....Apr. *247
Lockers see Refrigeration
Lubrication—Centralized lubrication cuts production costs. L. C. Rotter Nov. *80
How to lubricate hidden bearings. Jordan & Davis.....Oct. *7

M

Macaroni—handling dry ingredients—report. W. G. Hoskins.....May *94
New preparation of macaroni (P) Apr. 204
Machines—Supports keep machines level July *13

Magnets

Can injury in accumulator prevented by magnet. R. R. Williams Sr. Nov. *13
Grate magnet cleans free-flowing materials (e) .....Aug. *100
Magnetic field unit checks moisture content of fruits, vegetables (N) Oct. 256
Return of pan lids speeded by magnet .....Nov. *11
Mail box speeds freight movement. Max McNeer .....Dec. *13

Maintenance

General Foods close to 100% on package output efficiency. G. M. Woodruff (charts) .....Dec. *64
Packing machine maintenance checklist .....Apr. 111
Preventive maintenance. G. J. Martin. pt 1 Mar. *73 pt 2.....Apr. *83
Smooth packaging operations require alert machine maintenance. B. A. Engelbach .....Apr. *113
Management—Green Giant's fifty years of canning progress has been helped by company manuals. L. E. Slater .....May *66
Manufacturing—Industry plans more business—more competition (ed) May 118
New and improved manufactured foods (ed) .....Dec. 118

Margarine

BAI margarine standard (N)...Feb. 232
Coloring for margarine.....Feb. 181
Synthetic vitamin A aids food fortification. Bauernfeind, Rokosny & Siemers (table) .....June *81

Marketing and Distribution

Baker freezes surplus goods to assure deliveries on a 6-day basis. Herman Tyor .....May *64
Bulk granulated sugar by truck Apr. *73
Compartmentized railway car..Jan. *77
Crossland Fisheries quick freezes and cartons shrimp at sea. C. E. Wright .....May 133
Freight speeded by mail box. Max McNeer .....Dec. *13
Great Britain spurs sales with coronation theme .....May *144
Ice cream truck with low-bed 6-compartment body .....May *135
Juice dispenser aid plan (N)...Feb. 234
Payload boosting trailer undercarriage .....Sept. *68
Philadelphia dairy introduces warehouse on wheels. I. C. Miller..Nov. *86
Prepackaging produce .....Jan. *143
Radiant heat on truck floor....Feb. *64
St Joseph, Mo. packer delivers fresh meats nationally in refrigerated fleet .....Aug. *96
Square aluminum containers increase poultry shipping loads. Gene Iannelli .....Mar. *95
Truck tankers—versatile plus in carrying liquid foods.....July *71
Walk-in truck speeds deliveries of ice cream .....Jan. *129
Marking container (e).....Aug. *113
Marking machine for shipping cases (e) Jan. *113
Massometer (e) .....Nov. *113
Master Brewers Assn. of American convention (N) .....Jan. 182
New units for brewing.....Dec. *87
Mat of neoprene open-web useful in laboratory. Nussdorfer & McGowan Aug. *5

Materials Handling

Automatic handling system dumps avocados, scales them, records weights. C. R. Haviahorst...Apr. *64
Automatic stackers handle cases in dairy. John Shinn.....July *67
Avocado unstacker unloads from the bottom .....Apr. *64
Banana handling from ship to trucks and railways improved to sell better fruit. J. V. Ziemba....Aug. *90
Bottler installs fork truck-pallet system, boosts output, deliveries Jan. 127
Bread-hearth baking goes modern. J. V. Ziemba.....Jan. *90
Bulk handling dry ingredients—report. W. G. Hoskins.....May *94
Bulk handling ingredients fluidizes baking-flowsheet .....Dec. *118
Case-rotator for turning canned milk. A. L. Center .....Nov. *11
Cheddar cheese handling simplified by new cylindrical press and retaining hoop. R. R. Haugh..Nov. *88
Chicago biscuit plant shows advanced pattern of innovations. F. W. McCarthy.....Aug. *57
Corrugated paper bin package pays off in Western flour plant. H. A. Herzog .....July *57
Crane handles heavy burner assemblies. D. Bradshaw .....May *13
Dairy plant receiving room efficiency. C. V. Hall .....Apr. *66
Dried fruit company shifts from manual to mechanized raw materials handling .....Dec. *83
"Floating dock" makes loading safe. A. W. Machamer .....Sept. *5
Fresh-pack pickle flowsheet...Apr. *174
Fudge protection doubled by improved candy-handling technique Jan. *87
Gerber's ten improvements in glass-jar packaging lines curb interruptions. I. C. Miller.....Aug. *66
Hand trucking speeded with attachments and small pallets.....May *13
How Western processors slash package-freezing costs .....Sept. *50
Mars candybar making lines telescoped process time, contracted process space and enhanced quality. L. E. Slater.....May *57
Materials Handling Exposition in Philadelphia (picture feature) Aug. *79
Meat plant is never too old to modernize—4 ways that up output, save dollars. Presen Jessen Sept. *78
Mechanization is greatest cost cutter .....Oct. *95
Mechanize your materials handling—Illinois Institute of Technology report .....Dec. *133
National Conference Show (picture feature) .....Aug. *70

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Omar Inc. takes strides towards automatized baking. L. E. Slater..Dec. *60
Package engineering pays 207% in cheese plant. C. R. Havighorst Apr. *90
Partioned pallets speed loadings of bottles of various sizes.....Nov. *135
Popcorn kept at the same price by improvements in engineering. W. R. Holtz .....Jan. *59
Potato chips of quality. J. V. Ziemba Sept. *54
Robot speeds and eases case, bottle handling at brewery.....Sept. *67
Roll panning operations required 14 men, new setup takes 4, output increased .....Jan. *64
Shaker unloads materials clinging inside bulk cars. T. S. Abbott. Nov. *97
Square aluminum containers increase poultry shipping loads. Gene Iannelli .....Mar. *95
Stahl-Meyer's meat-handling system slashes processing time in sausage kitchen .....Jan. *125
Streamlining gets Vernell's more output with less shifts. Ray Bloomberg .....June *63
Sugar handling in bulk should be planned. E. W. Meeker.....Aug. *129
Tractor and trailer system moves material from plant to docks..Dec. *129
Tray-rack avoids jar damage. Isadore Silveria .....Oct. *5
Twin bakery quadruples output in seven-phase advance. J. V. Ziemba Nov. *72
Unretorted crates caught by device. Tom Krainik .....Jan. *11
Whey handling in cheese plant speeded by glass pipes.....Mar. *96
Mayonnaise—Blue Plate plant's new mayonnaise process adds up as quality plus efficiency. F. K. Lawler .....June *44
Kraft plant glass packaged food is non-stop conveyorized .....June *62
McGraw, Curtis W., president of McGraw-Hill Co. dies..... Oct. *252
McGraw, Donald C. named to presidency of McGraw Hill (N).....Oct. *254

Meat

Airpockets in wieners.....Oct. 224
Air pockets in franks. R. S. Parker Dec. 181
Air pump used to convey pickle for meat curing .....Feb. *50
AMI show displays new equipment Nov. *92
Aureo, oleo and cathode rays for better meats, fish (N).....Aug. 184
Bacon—machine produces tight wrap on sliced bacon.....Feb. *167
Bacon and peanut butter spread July *146
Bacon, quick-cured .....Sept. 202
Bacterial populations in canned beef (A) .....Dec. 161
Barbecued pork canned.....July *146
Beef spoilage not fully inhibited by subtilin (A) .....Feb. 195
Boston meat packer modernizes and triples its output. J. V. Ziemba May *69
Calibrated casing and sealing for chunk sausage .....Oct. *198
Canadian bacon pack.....May *150
Canadian bacon prepackaged....Mar. *142
Cleaning costs cut by meat packers. Tucker & Fiske.....Sept. *91
Cudahy accounts electronically..Sept. *81
Danish canned ham—how they put that quality into the ham.....Dec. *127
Discoloration checked of prepackaged sliced luncheon meats..Dec. *142
Discoloration of meat.....Aug. 170
Di-sodium phosphate in pumping pickle for certain cured meats Feb. 214
Dried beef in new package .....Feb. *192
Effect of quantity of nitrite on canned meat quality (A).....May 157
Feeding experiments on hogs (A) June 193
Fire prevention program, including electronic units, stops fires before they start. Frank De Vaux..Sept. *77
Frankfurters packed in vacuumed bag guards quality. Bert Rabinowitz .....Nov. *133
Frankfurters stored with carbon dioxide last longer (A).....June 193
Frozen buttered steaks.....Apr. *192
Frozen pork quality depends on wrappers (A) .....Jan. 149
Gelatin from collagen (A) ....Jan. 149
Grinder discharge directed by hood. Max Hoadley .....Dec. *13
Grinder made safe by pivoted shield. Max Hoadley .....Dec. *13
Ground beef in bulk form.....Apr. *195
Ham—facts about cold sterilization. W. M. Urbain pt 1 Feb. *45 pt 2 Mar. *77
Hamburgers frozen and packaged July *142
Hog-immobilizing process wins Food Engineering Achievement Award June *43
Horsemeat detection by a modified Paschke test (A).....Aug. 160
Humidity absorption by sausages June 214
Liver paste formula.....July 182
Meat Inspection Div. okays pickling additive (N) .....Feb. 234
Meat special and show guide Sept. *69-112
Natural spices add much more than flavor. J. J. Frank (table)..June *78
Never too old to modernize—4 ways that up output, save dollars. Presen Jessen .....Sept. *78
New high-vacuum packager keeps meat longer .....Sept. *97
Packaging innovations for meat Nov. *144
Packer ends plant power pinch by switching to higher voltage .Jan. *67
Pork cut in pieces dispensed in cans Oct. 228
Pork trichinosis curbed by radiation, quick freezing (N).....Mar. 192
Prepackaging of meats integrated by Morrell. Don Reedquist.....Sept. *74
Quality batches figured simply. Armand Belanger (charts).....Feb. *88
Quick-cured bacon .....July 174
St. Joseph Mo. packer delivers fresh meats nationally in refrigerated fleet .....Aug. *96
Sausage seasoning formula.....Feb. 223
Sausages—artificial casings ....Apr. 194
Sausages improved by separating the smoking function from cooking. C. W. Schmidt .....July *80
Sausage in cellophane bag.....Dec. *145
Sausages packaged in cellophane (e) May *107
Sausages—skinless cooked, by continuous process (P).....Mar. 164
Smoking meat electrostatically. Morse & Pivan.....Sept. *70
Stahl-Meyer's meat-handling system slashes processing time in sausage kitchen .....Jan. *125
Study tells way to reduce damage to beef in transit (N).....Mar. 190
Temperature-humidity control in frankfurter department. De Vaux & Jackson .....Jan. *13
Tenderizer and seasoning packed together .....Dec. *146
Wash-water losses prevented by solenoid valve in pipe. J. R. Ferguson .....Nov. *5
Workers spot plant hazards in packing firm. I. C. Miller.....Mar. *93

Meters

Liquid meter (e) .....Dec. *113
pH meter (e) .....Nov. *101
Portable instruments (e) .....Aug. *109
Stainless steel rotary meter (e) Aug. *105
Micromerograph measures dry powder granules .....Dec. *71

Milk

Antibiotics vs bacteria (N).....Aug. 184
Babcock test techniques (A) May 155, (A) .....Sept. 193
Canned goat milk.....June *190
Canned whole fresh milk (P)..Nov. 162
Carnation Co. approves liquefied petroleum gas for its 20-truck fleet .....June *56
Case handling hurdles cleared by automatic stacking. John Shinn July *67
Cleaning stainless steel pipelines in place. R. F. Holland & others May *75
Coliform counts speeded by membrane-filter method (A).....May 155
Concentrated milk product of high flavor (P) .....Dec. 153
Concentrated-type milk again fails to score (N).....Sept. 215
Dried honey-milk (P).....Mar. 166
Evaporated milk keeps best when stored at 40 deg. F (A).....Mar. 164
Fat loss cut by milk sampling device .....Sept. *13
Fiber carrier for paper milk bottles (e) .....Apr. *167
Fortified fresh nonfat milk....Nov. 144
Gamma rays harm milk (N) ....Aug. 183
Ion exchange improves dairy products. D. F. Garrett .....July *61
Lactometer test at University of Maryland (N) .....Apr. 239
New canned milk (N) .....Mar. 189
New cream separation (N).....Sept. 215
No holding time pasteurization makes progress. F. W. Barber .....Nov. *62
Non-fat milk solids lack some lactic culture nutrients (A).....Sept. 193
Powdered cream in packets....Sept. *186
Pre-pasteurization treatment reduces milkstone deposit (A) .....Feb. 201
Pyramid-type paper bottles made, filled link-fashion .....Sept. *48
Quick milk test (N) .....Mar. 190
Receiving room efficiency in a dairy plant. C. V. Hall .....Apr. *66
Soft X-ray sterilization of canned powdered milk (N).....Apr. 244
Sour cream separation in packing herring fillets. A. S. Levine..Mar. 175
Sterile milk in South Africa (N) May 199
Subtilin plus mild heat does not control spoilage in milk (A).....Apr. 208
Susceptibility to oxidized flavor influenced by hydrolysis of milk protein (A) .....May 153
Sweet spread .....Apr. *196
When cows are fed the vitamin element manadione, milk keeps sweet longer (N) .....Dec. 195
White crystalline sediment in sweet condensed milks (A).....Jan. 152

Mixers

Baby cereal preparation streamlined Feb. *60
Company designs mixer for consumer use—frozen concentrated orange juice .....Mar. *142
Continuous mixing. J. A. Abbott Aug. *64
Continuous proportioning—catalyst of the automatic plant. Lawrence Lowy .....July *72
Foam-candy continuously produced by new machine .....Feb. *56
High speed mixer for viscous items (e) .....June *155
Lab blender for dry mix studies (e) Nov. *113
Lab mixer (e) .....July *115
Lab mixer for hazardous liquids (e) Dec. *100
Mixer of products in drums (e) Jan. *115
Mixers emulsify mayonnaise in nitrogen atmosphere results in quality plus efficiency. F. K. Lawler June *44
Mixing advances. Ted Jensen ..Oct. *169
Offset agitator improves mixing Aug. *11
Proportioner for mixed vegetables. Albert Schuchardt .....Feb. *11
Pushbutton mixing at ice cream plant Feb. *51
Triple mixing problem—dessert powders .....Dec. 190
Models—Designing a milk and ice cream plant (N) .....Apr. *239
Plastic scale model of millhouse Jan. *93

Modernization

Boston meat packer modernizes and triples its output. J. V. Ziemba May *69
Bread-hearth baking goes modern. J. V. Ziemba .....Jan. *90
Economics of technical progress (charts) .....Oct. *72-81
Meat plant is never too old to modernize—4 ways that up output, save dollars. Presen Jessen..Sept. *78

Moisture

Absorbent unit (e) .....June *146
Accurate moisture determination unit .....Jan. *11
Magnetic field unit checks moisture content of fruits, vegetables (N) Oct. 256
Monocalcium silicate a component in a mineral building material....May *109
Monosodium glutamate
In frozen foods (A).....Mar. 170
Plant to convert monosodium glutamate from molasses (N) ....June 229

Motors

A.C. motor advantages (e)....Dec. *99
Chemical resistant motor (e)....May *111
Cleaning motors. H. D. Jefferson June *7
Motor starter (e).....Apr. *169
Simple safety drive .....Nov. *13
Small motors start on high torque (e) .....July *111
Totally-enclosed motor (e).....Jan. *99

Mushrooms

Canning quality at a fast pace. J. V. Ziemba.....July *64
Flowsheet for mushroom canning July *120
Mushroom catsup formula.....June 216
Turning mushrooms on conveyor for inspection. Walter Blevins. June *11
Mustard—Fine milling makes fine mustard. J. A. Morris .....Mar. *125
Mustard seed — removing rodent pellets May 182

N

Naringin used in Swedish beverage (N) Jan. 183
National Canners Assn.
Canning Insert with show guide Feb. *69-112
Meets in Chicago (N).....Apr. 239
National Confectioners' Assn. convention (N) .....July 189
National Food & Nutrition Institute meets (N) .....Jan. 184
Neoprene overshoes resist chemicals (e) Apr. *171
Nisin retards Gruyere cheese anaerobic bacteria (A) .....Jan. 152
Noises—Unit detects mechanical trouble (e) .....Sept. *167
Noodles turned grey .....Aug. 170

Nutrition

The growing role of phosphates—they offer more than enrichment. Barackman & Bell.....June *68
Progress in nutrition (ed).....Mar. 116
Synthetic vitamin A aids food fortification. Bauernfeind, Rokosny & Siemers (tables) .....June *81

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News

Nuts

Continuous nut roaster (P)....Dec. 154
Drying sliced almonds.....Feb. 219
Electric nut crackers (N).....Sept. 218
Electronic separation of nuts by high-speed sorters. E. Grosz.....Aug. *95
Pecan nut storage the year round. Woodroof & Heaton (tables)..May *83

O

Obsolescence—dont be a victim of creeping obsolescence. F. K. Lawler Nov. 116
Odors—Preventing odor pickup by foods in storage (A) .....Mar. 172

Oils and Fats

Advanced food processing with improved fats and oils—factors in lard's comeback—new fats that stay plastic-soybean-oil flavor stabilized .....June *99
Cold rendering of fats and oils (N) Jan. 184
Cold water fat extraction from bones (A) .....Feb. 195
Conidendrols are effective in stabilizing edible fats (A).....Jan. 154
Corn oil bottled .....Jan. 163
Cottonseed extraction (A).....Aug. 154
Cottonseed oil plant (N).....Jan. *181
Extraction of oil from cottonseeds (A) .....July *153
Fast cooling of oils.....May 180
Fat rendering process (P).....Mar. 161
Filtration extraction of oil uses less solvent (A) .....Apr. 208
Gallic aid esters as antioxidants for fats (N) .....Dec. 195
Glycol purified for use in coconut (P) Mar. 162
Lard improvements .....Mar. 176
Lard improvements make it successful for baking cakes, pies and bread. L. E. Slater.....Sept. *72
Lard, molecular-modified, flowsheet Sept. *102
Lard temperature in rendering..Apr. 220
Lard's comeback. Ault & Riemenschneider .....June *99
Liquid vegetable oils converted to solid fats by hydrogenation controlled by robots. Force & Elliot June *54
Mellorine scores 4 to 2 in recent state rulings (N) .....Oct. 253
New fats .....Oct. 222
New fats that stay plastic. R. O. Feuge .....June 100
Oil conditioner (e).....Feb. *181
On keeping fats fluid.....Aug. 172
Palm oil converted by hydrogenation into a food product (A).....July 153
Shortening improved with triacetin (P) .....Mar. 161
Solvent extraction of cottonseeds aids small operators.....Aug. *89
Soybean oil extraction (A).....June 194
Soybean oil inversion inhibited by phytic acid (A) .....Aug. 154
Soy oil flavor stabilized with metal inactivators. J. C. Cowan (tables) June 103
Sulfur treatment ups oils' life (A) Feb. 202
Vapor-sealed salad oil (N).....Mar. 189

Olives

Bacteria under olive skins blamed for yeast spots (A) .....July 164
Faster brine making and filling. J. V. Ziemba .....Sept. *57
Smoked, pickled olives (N).....July 189
Stuffed olives in cans.....May *144
Opening machine (e).....Mar. *100
Overshoes of neoprene, resist chemicals (e) .....Apr. *171

Oysters

Australia produces oysters better and faster (N) .....Feb. 224
Olympia oysters theatened (N).....Nov. 197
Oyster stew in cans.....Apr. *197

P

Packaging

AMI show features meat packaging innovations .....Nov. *144
Bananas labeled .....Oct. 226
Burry Biscuit Co. adds one production line to old five increases production a third. Burry & Wood..June *48
Carton forming and lining machine (e) .....June *146
Carton glueing aided by air blast. D. C. Cornell .....Apr. *8
Cartoning systems speed brewers' half-dozens .....July *131
Cereal pack offers transparent sides Feb. *188
Chart tells right carton size in a jiffy. R. R. Haugh.....Mar. *79
Considers coding packages....Jan. 166
Corn syrup line streamlines filling, closing and casing operations. J. C. Miller .....May *61
Corrugated paper bin package pays off in Western flour plant. H. A. Herzog .....July *57
Flavorseal coating adds life to prepackaged tomatoes. C. R. Havighorst .....July *127
Fractional packaging up in popularity .....Aug. *140
Frankfurters packed in vacummed bag guards quality. Bert Rabinowitz .....Nov. *133
Gamma radiations sterilize food wrappers. Kempe, Graikoski & Brownell .....Nov. *55
General Foods close to 100% on package output efficiency. G. M. Woodruff (charts) .....Dec. *64
General Mills plant proves advantages of carton filling with new netweight packaging principle Mar. *62
Gerber's ten improvements in glass-jar packaging lines curb interruptions. J. C. Miller.....Aug. *66
Greater packaging efficiency by analyzing line performance. W. P. Schommer .....Apr. *86
High-vacuum packager keeps meat longer .....Sept. *97
How Western processors slash package-freezing costs .....Sept. *50
Indexing of overwrap controlled Aug. *9
Infra-red lamps directed at glue rolls solves humidity problem. D. C. Cornell .....Mar. *7
Innovations in machines aid cost reduction. J. V. Ziemba.....Apr. *101
Kitten bottle changed to elephant bottle to streamline production for sales success. W. E. Manking Sept. *60
Kraft plant glass packaged food is non-stop conveyorized .....June *62
Machine produces tight wrap on sliced bacon .....Feb. *167
Maintenance checklist for packaging line .....Apr. 111
New packages and products. Mar. 142, Apr. 192, May 144, June 184, July 142, Aug. 140, Sept. 182, Oct. 198, Nov. 144, Dec. 142
New packaging films (N).....Nov. 194
Pabst Brewing increases packaging speeds and fill precision by electronic controls. Glenn Cram..June *47
Packaging machines—faster speeds increase productivity .....Oct. *109
Packaging materials—innovations aid quality and efficiency.....Oct. *115
Package engineering pays 207%. C. R. Havighorst.....Apr. *90
Packaging Exposition in Chicago July *83
Packaging machine (e).....Mar. *113
Packaging machine checklist—guide for setting up specifications. C. O. Smith .....Apr. *94
Packaging Show Guide.....Apr. *118
Packaging special and show guide Apr. *85-124
Portion control packages.....June *184
Potato chip packaging machines lop labor costs.....June *50
Prepackaging of meats integrated by Morrell. Don Reedquist.....Sept. *74
Prepackaging produce .....Jan. *143
Refrigeration's role in prepackaging (A) .....Sept. 195
Sauerkraut packed in film bags is investigated (A) .....Jan. 149
Sausage packaged in cellophane (e) May *107
Size of package adjustable on automatic machine (e).....July *113
Smooth packaging operations require alert machine maintenance. E. A. Englebach.....Apr. *112
Three new flexible packaging materials .....Aug. 142
Vacuum packaging without a vacuum chamber (P) .....Oct. 206
What it takes to cut costs....Apr. *97
Packaging see also Containers, Glass containers, Wrapping
Packaging Institute meets (N).....Nov. 193

Packing

Bulk foods packed in giant cardboard boxes .....May *101
Mobile stitcher aids field packing Apr. *7
Paper milk containers cased automatically (e) .....Apr. 158
Quick cooling cuts fresh vegetable losses by packer. C. E. Wright Jan. *94

Paints

Benefits high with engineered plant colors. Faber Birren.....Sept. *45
Dairy company switches to special resin-base coatings with fewer repeats .....Nov. *127
Interior paints have odorless solvents Nov. 115
Odorless, non-toxic finish in many colors .....July 117
Window tint coat (e).....Mar. 115

Pallets

Bottler installs fork truck-pallet system, boosts output, deliveries Jan. 127
Partitioned pallets speed loadings of bottles of various sizes.....Nov. *135
Roller conveyors for pallets. R. W. Garrett .....Nov. *5
Steel-wood pallet (e).....Nov. *99
Tubular steel pallet (e).....Jan. *100
Paper wipers (e).....Nov. *111
Parrot fever carried by turkeys (A) Nov. 163
Particle size of dry powder measured by micromerograph.....Dec. *71
Pasteurization—Heat insulation for food quality and savings. M. F. Allen Sept. *62
No holding time pasteurization makes progress. F. W. Barber.....Nov. *62
Pattie machine (e).....Aug. *103

Peanuts

Electronic sorting assures uniformity for smoother blends .....Dec. *70
Flavor of peanuts and peanut products affected by certain insecticides (A) .....June 196
New research on peanuts (N)...Apr. 244
Peanut butter and bacon spread..July *146
Peanut butter filling difficulties..May 172
Raw-water blanched peanuts for consumers .....Jan. *138
Shrinkage losses in processing peanuts into peanut butter.....June 210

Peas

Blackeye peas—speed makes quality. E. D. White.....Dec. *125
Canning plant transformed to top-rank quick freezing plant. Lamb & Havighorst .....Jan. *68
Flowsheet for quick freezing....Jan. *118
Pea soup formula.....July 180
Portable viner (e) .....Mar. *107

Pectin

Better pectins—they improve many processed foods. G. H. Joseph..June *71
Dark pectin problem.....Feb. 215
Pilot plant pectin from citrus peel (A) .....June 200
Peeling—Washing and peeling of raw materials .....Oct. *155
Peppers—Pimento canning. E. D. White Sept. *64

Pest control

Advances in food-plant sanitation in the past 25 years. Keith Fitch Oct. *92
Apparatus separates, destroys insects in grain (P).....Nov. 164
Electronic device "listens" for insects in stored grain (N).....Oct. 258
Insect fragments counted by new color method (A).....Apr. 212
Removing rodent pellets from mustard seed .....May 182
Rodents controlled by carbon-dioxide sublimed from dry ice..July 11
Speed-up of insect-fragment count. C. F. Buck .....Jan. *7
Pest control see also Insecticides
Phosphates—The growing role of phosphates—they offer more than enrichment. Barackman & Bell..June *68

Pickles

Continuous pasteurization of fresh-pack pickles. Delos Wallace..Apr. *80
Corn-on-the-cob pickled .....Mar. *148
Corn syrup wins place as pickle sweetener. Fabian & Pivnick..Mar. 97
Faster brine making and filling for olive packer. J. V. Ziemba..Sept. *57
Flowsheet for making fresh-pack pickles .....Apr. *174
How store lights fade pickles. Fabian & Baldwin (charts)..June *61
Odor in pickles.....June 212
Pouch for two pickles.....Aug. *142
Relish for hot dogs.....June 212
Pineapple—Cuban pineapple to be canned in Florida (N).....May 200

Pipes

Aluminum water pipes.....Nov. 186
Cleaning pipelines in place. R. B. Parker & others (tables).....Jan. *82
Conversion tool for pipe fittings (e) July *102
Glass pipe solves shortage problem Aug. *7
Heat insulation for food quality and savings. M. F. Allen .....Sept. *62
In-place cleaning of stainless steel pipelines. R. F. Holland & others May *75
Leaky fittings .....Jan. 162
Line purifier (e).....Feb. *169
Pipe dope contains Teflon.....Dec. 115
Plastic pipe, fittings (e).....Apr. *161
Radioactive tracers to mark interfaces and measure intermixing in pipelines (A) .....Feb. 202
Pizza pie ingredients canned.....Apr. *194

Plant layout

Ice cream plant features continuous flow .....Feb. *51
Packaging room for meat plant..Sept. *74
Plants—Change in number of food establishments by divisions of industry, 1929-1947 (table) .....Oct. 80
Food plant of the future.....Oct. *82
Plants see also Construction

* Illustrated, (A) Abstract, (e) Equipment, (ed) Editorial, (P) Patents, (N) News

Plastics

Coating reduces insulation maintenance (e) ..... Apr. *171
Flexible plastic lids ..... Apr. 197
Glue bottle of plastic ..... Feb. *7
Resin finish ..... Jan. 115
Platform, safety (e) ..... Oct. 191
Plating—New nickel plating uses less metal (N) ..... Apr. 243
Pneumatic conveying system to handle flour in small bakeries. E. T. Slackford ..... Apr. *69
Pneumatic mover for dry bulk materials (e) ..... Sept. *173
Pneumatic tube system (e) ..... Dec. *109
Polyoxyethylene stearate not yet "safe" concludes Food Protective Committee of National Research Council (N) ..... Aug. 183
Popcorn—engineers keep price at 5¢. W. R. Holtz ..... Jan. *69
Popcorn, rainbow-colored ..... June *187

Potatoes

Bag for peeled potatoes ..... Sept. *186
Better potato dehydrating by slow freezing. R. C. Hall (charts) .. Mar. *90
Darkening of peeled white potatoes prevented by solution (P) .... May 164
Flavor of sweet potatoes affected by insecticides (A) ..... June 198
Peeling machine (e) ..... July 116
Potato chips (A) ..... Aug. 160
Potato chips change flavor ..... June 218
Potato chips in moisture controlling package ..... July *142
Potato chips of quality. J. V. Ziemba Sept. *54
Potato chip packaging machines lop labor costs ..... June *50
Powdered spud boom? (N) .... Feb. 232
Precooked and dried potatoes .. Sept. *186
Sponge rubber roll drying of washed Maine potatoes (A) ..... Nov. 156
Treating peeled potatoes ..... Jan. 165

Poultry

Antioxidant containing coating protects frozen poultry (A) ..... July 158
Bagging giblets (e) ..... Nov. *109
Better broilers processed better. Mensing & Morris ..... Apr. *76
Chlorine dips improve poultry (N) Apr. 248
Defeathering unit (P) ..... Dec. 162
Device stuns fowls to prevent struggling (P) ..... Feb. *195
Jet freezing of poultry—newest quick-freeze system. Edward Simons ..... Nov. *57
Jet-frozen poultry (N) ..... Mar. 192
Polyethylene poultry bag ..... Mar. *146
Quality processor of Arkansas' new "bred to the package" broiler. Darrell Ward ..... Aug. *92
Sanitizing procedures increase shelf-life (A) ..... Sept. 194
Square aluminum containers increase poultry shipping loads. Gene Iannelli ..... Mar. *95
Turkeys carry parrot fever (A) .. Nov. 163
Vented wrap for poultry ..... Sept. *186
Waste control cuts disposal costs (N) Mar. 190
What to do with skins in canning poultry ..... Dec. 186
Power—Plant power pinch at meat packer's ended by switching to higher voltage ..... Jan. *67
How to feed electricity to food plant equipment. K. P. Grenfell .... Dec. *90
Press, hydraulic, speeds fig cutting. Robert Korn ..... Apr. *11
Press, strip feed (e) ..... Sept. *169
Production—Percentage of business by 50 largest food firms in each branch (table) ..... Oct. 81
Value added per production worker and per plant for divisions of food industry, 1929-1947 (table) ... Oct. 81

Production control

Burry Biscuit Co. adds one production line to old five increases production a third. Burry & Wood ..... June *48
Fudge production doubled by improved candy-handling technique Jan. *87
General Foods close to 100% on package output efficiency. G. M. Woodruff (charts) ..... Dec. *64
Pie fillings output quadrupled. Richard Prince ..... Feb. *68
Roll panning operations required 14 men, new setup takes 4, output increased ..... Jan. *64
Stahl-Meyer's meat-handling system slashes processing time in sausage kitchen ..... Jan. *126
Streamlining gets Vernell's more output with less shifts. Ray Bloomberg ..... June *62
Twin bakery quadruples output in seven-phase advance. J. V. Ziemba Nov. *72
Productivity—Greater packaging efficiency by analyzing line performance. W. P. Schommer ... Apr. *86
Propenyl guaethol—better artificial vanilla flavor. C. A. Tyler ..... Jan. *62
Proportioner for solids ..... Aug. *13
Proportioning. Lawrence Lowy ..... Oct. *163
Protovanol "C" replaces coumarin .. Sept. 175
Puddings see Desserts
Pulley, motor (e) ..... Aug. *105

Pulverizing

Better dry soups by comminuting. A. C. Rauch ..... Feb. *97
Mill handles variety of feed sizes (e) ..... Jan. *103
Pulverizer (e) ..... Nov. *105

Pumps

Air-operated pump (e) ..... Jan. *105
Air pump used to convey pickle for meat curing ..... Feb. *50
Auto-controls pumping of pickle into hams ..... Feb. *177
Centrifugal pump (e). May *109, June *147
Continuous proportioning. Lawrence Lowy ..... July *72
Ends pump "air bending." J. L. Oliphant ..... Sept. *11
Homemade sump pump self-starter. Marshall Frink ..... June *6
Impeller pump (e) ..... July *107
Pressure fingers move liquids (e) Sept. *167
Pump for milk (e) ..... May 117
Pump of corrosion resistant materials ..... Apr. *165
Pumping sure with stand-by turbine Nov. *5
Rotary gear pump for viscous liquids (e) ..... June *151
Scoop-rotor pump handles powder solution (e) ..... Jan. *103
Selecting pump impellers. J. A. Cable ..... July *133
Sump pump (e) ..... Dec. *111

Q

Quality control

Additives to improve quality: when, into what, and why (tables) .. Oct. 91
Advances in analytical tools and ingredients ..... Oct. *88
Baby cereal preparation streamlined Feb. *60
Better broilers processed better. Mensing & Morris ..... Apr. *76
Blackeye peas—speed makes quality. E. D. White ..... Dec. *125
Citrus frozen concentrate mishandled and tested to assure quality after as well as before. C. H. Brokaw July *94
Controls in canning give higher gains in quality. L. E. Slater ..... Feb. *85
Corn syrup blended with liquid sugar produces quality fruits. E. H. Wiegand ..... May *131
Danish canned ham—how they put that quality into the ham .... Dec. *127
Frankfurters packed in vacuumed bag guards quality. Bert Rabinowitz ..... Nov. *183
Fresh-pack pickles have processed-paced quality control. Delos Wallace ..... Apr. *80
Frying breaded fish non-stop. J. V. Ziemba ..... Dec. *84
Grapefruit beverage manufacturer improves quality, increases production and reduces costs. V. D. Littlefield ..... Aug. *84
Insulating for food quality and savings. M. F. Allen ..... Sept. *62
Mayonnaise process at Blue Plate plant adds up as quality plus efficiency. F. K. Lawler ..... June *44
Meat packers figure quality batches. Armand Belanger (charts) .. Feb. *58
Mushroom canning—quality at a fast pace. J. V. Ziemba ..... July *64
New split-degree tempering for uniform quality chocolate goods. Neilson & Sheffman ..... Dec. *59
pH control ups quality of beer .. Mar. *66
Potato chips of quality. J. V. Ziemba Sept. *54
Poultry: engineered A to Z. Darrell Ward ..... Aug. *92
Sausages improved by separating the smoking function from the cooking. C. W. Schmidt ..... July *80
Uniformity control of candy trims costly variation losses. E. D. White Mar. *80
What makes good soluble coffe. W. C. Winokur ..... Nov. *76

Quick freezing

Baker freezes surplus goods to assure deliveries on a 6-day basis. Herman Tyor ..... May *64
Boost from deep-freeze (N) .... Feb. 230
Chicken a la king sauce curdles .. Feb. 216
Chinese food frozen gains in popularity ..... Oct. *200
Citrus concentrates fortified by orange oil to six-fold density (A) May 164
Corn fritter batter frozen (P) .. Mar. 170
Corn fritters frozen ..... June 188
Crossland Fisheries quick freezes and cartons shrimp at sea. C. E. Wright May 133
Deep-dish pies frozen ..... Aug. *144
Defrosted-food indicator ..... June 219
Fish, frozen, in new form and tailored sizes ..... Apr. *192
Freezer insulating procedure for warehouse of frozen orange juice Sept. *11
Freezing fish at sea (A) ..... Apr. 206
Frozen cherries ..... Jan. *141
Frozen citrus concentrates degraded by flash-heat treatment (N) .. May 203
Frozen pork quality depends on wrapper (A) ..... Jan. 149
Hamburgers frozen and packaged July *142
Herring fillets, quick frozen smoked Mar. *144
How frozen concentrated orange juice compares with fresh juice. Zinn & Bien (charts) ..... May *127
How Western processors slash package-freezing costs ..... Sept. *50
Jet freezing of poultry—newest quick-freeze system. Edward Simons ..... Nov. *57
Lobsters frozen in handy pack Feb. *188
Monosodium glutamate in frozen foods (A) ..... Mar. 170
Pea-freezing flowsheet ..... Jan. *118
Pea plant transformed from canning to top-rank quick freezing. Lamb & Havighorst ..... Jan. *68
Quality fruits with corn syrup. E. H. Weigand ..... May *131
Rapid-freezer handles packaged food in various sizes (e) ..... Mar. *99
Seafood items spotlighted at Frozen Food Show ..... June *186
Sodium hexametaphosphate not beneficial to frozen cottage cheese (A) Nov. 162
Soup in frozen form ..... Mar. *146
Steaks, frozen buttered ..... Apr. *192
Waffles, frozen ..... Jan. *141

R

Racks for tools. James Owens ..... July *7
Rack for trash-cans. James Owens .. May *7

Radiation

Cold sterilization. W. M. Urbain .. Oct. *86
Diagnosing cold death for micro-organisms in food (Ed) ..... Mar. 116
Facts about cold sterilization. W. M. Urbain ... pt 1 Feb. *45, pt 2 Mar. *77
Gamma radiations sterilize food wrappers. Kempe, Graikoski & Brownell ..... Nov. *85

Railway cars

Air envelope cars will compare mechanical reefers ..... July *76
Bulk-handling ingredients — report. W. G. Hoskins ..... May *94
Compartmentized car ..... Jan. *77
Fast car-icing service (N) ..... Feb. *233
New type of covered hopper car. June *145
Shaker unloads materials clinging inside bulk cars. T. S. Abbott. Nov. *97
Ramp, portable (e) ..... Feb. *175
Reamer made into instrument support. Robert Horn ..... July *6

Refrigeration

Advances made in mechanical refrigeration since 1928 ..... Oct. *127
Air envelope cars will compare mechanical reefers ..... July *76
Beverage plant cooling requirements can be figured fast. Tyler Hicks (charts) ..... Feb. *63
Clothing to be worn by truck operators in frozen food warehouses Dec. *9
Data for 3 compressors with 1 recorder. H. F. Davis ..... May *11
Insulated shipper (e) ..... Oct. *193
Jamming of refrigerator doors avoided ..... Aug. *13
Lockers turn to selling (N) .... Sept. 216
Philadelphia dairy introduces warehouse on wheels. I. C. Miller .. Nov. *86
Properties of refrigerants (A) .. Apr. 210
Quick cooling cuts fresh vegetable losses by packer. C. E. Wright. Jan. *94
Refrigeration's role in prepackaging (A) ..... Sept. 195
St. Joseph, Mo., packer delivers fresh meats nationally in refrigerated fleet ..... Aug. *96
Wire screen flights improve cooler. Jordan & Davis ..... Sept. *7
Research—Food research becomes goat of defense economy (ed) ..... July 118
Scientists and staffs of research and development laboratories in manufacturing industries 1951 (table) Oct. 80
Research & Development Associates, Food & Container Institute (N) .... July 190
Rest rooms for employees ..... Nov. 186

Rice

Canned pre-cooked rice (P) .... Mar. 170
Relative humidity raises increase the yield of head rice (N) ..... Aug. 183
Wild rice ..... Mar. *94, June *190
Roller chain sprockets (e) ..... Apr. 157
Roof, sanitary quake-proof (N) ..... Feb. *229
Roof sprayer (e) ..... July *193
Rotameter (e) ..... June *187
Russia—Reports on food technology (N) Nov. 197

• Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

S

Safety

Aids that advance safety program. A. F. Wenske ..... June *9
Anheuser-Busch removes broken glass and rejects with oscillating trough conveyors ..... Dec. *96
Bottle washing machines end broken glass hazard. Lewis Richardson ..... Mar. *5
Bottling line operations protected by glass baffle on balcony ..... Sept. *13
Counterbalance made safe in wine filter. T. A. Bowles ..... Dec. *7
Counter weighting made safe by housing. A. W. Machamer ..... Dec. *13
Crosse & Blackwell chalking up safe man-hours by the millions. A. B. Ott ..... Nov. *84
Don't be the cause of injuries to workers (ed) ..... Apr. 172
First-aid kit ..... Nov. *113
Gasoline powdered trucks with special exhaust to kill fumes, handle dairy foods in unventilated basement ..... Dec. *95
Lift truck ceiling jobs safeguarded by platforms ..... Oct. *9
Lights warn when train is in plant. A. W. Machamer ..... Oct. *5
Making a tall ladder safe ..... Dec. *11
National Safety Council gives results of Food Section Safety Contest (N) ..... Apr. 242
Rules for safe conveyor operation ..... Jan. 9
Runway aids safety in bottling plant ..... Sept. 13
Show-place is safe place. Renner & Duggins ..... Jan. *74
Soy bean oil extraction plant prevents flame hazards by instrument detectors ..... Jan. *96
Sterilizer for empty feed bags soon pays its way ..... June *51
Talking dummy sells workers on safety ..... July *70
Workers spot plant hazards in packing firm. I. C. Miller ..... Mar. *92

Salad dressing

Contaminated dressing ..... May 182
Controlling dressing spoilage ... Aug. 175
Making dressing continuously .. Jan. 168
Making salad dressing ..... Mar. 177
Salad dressing for tossed salad .. July *146
Sour cream dressing manufacture ..... Apr. 230
Salt—Individual "salties" ..... Apr. *194
Mineralized salt to be marketed (N) ..... May 199
Sampler, spoon (e) ..... Oct. *194
Sampler, weigh-tank (e) ..... June 159
Sampling table for tomatoes. Desrosier, McArdle & Miles ..... May *92

Sanitation

Advances in food-plant sanitation in the past 25 years. Keith Fitch ..... Oct. *92
Blue Plant plant's rigorous control and process innovations produce quality mayonnaise. F. K. Lawler ..... June *44
Danish canned ham—how they put that quality into the ham ..... Dec. *127
Faster brine making and filling for olive packer. J. V. Ziemba ..... Sept. *57
Federal fines point up No. 1 plant problem. F. K. Lawler ..... Nov. 116
How FDA men inspect a plant. E. L. Holmes ..... Nov. *64
How to nip those beverage contaminators. N. F. Insalata ..... Apr. *70
Sanitizing a fish plant ..... Mar. 174
Seven "musts" in sanitary-plant layout. H. L. Stackhouse ..... Mar. *68
Show place is safe place. Renner & Duggins ..... Jan. *74
These streamlined practices cut packers' cleaning costs. Tucker & Fiske ..... Sept. *91
Tips on curbing insects in plants. Huge & Holmes ..... Sept. *58
Sanitation see also Cleaning

Sauces

Catsup-formula for tomato ..... Dec. 185
Chinese sauce ..... July *144
Controlling operations ..... Oct. 218
Meat sauce formula ..... July 184
Mushroom catsup formula ..... June 216
New way to control sauce viscosity. W. R. Van Meter ..... May *7
Powdered spaghetti sauce ..... Dec. *142
Tomato sauce dehydrated premix is three way saver. Barton & Trauberman ..... Nov. *79
Tomato sauce problem. Hodler, Livingston ..... Dec. 178
Sauerkraut—Results from packing kraut in film bags (A) ..... Jan. 149
Saw, power, cuts pipe, tubing (e) ..... May *111
Saw-dust burner C. W. Schmidt ..... Dec. *9
Sawing thin wood C. T. Bower ..... Jan. *7

Screens

Easy-to-make vibrating screen. J. H. Hall ..... Mar. *11
Improved screen efficiency. W. A. Free Jr. ..... Feb. *11
Picking the proper screens for most efficient sifting. A. T. Templin (table) ..... Jan. *78
Screen specifications and mesh comparisons (table) ..... Jan. 79
Vibrating screen (e) ..... Feb. *171

Sealers

Automatic case sealer (e) ..... Feb. *179
Continuous auto-unit seals (e) .. Sept. *161
Machine applies container lids, seals (e) ..... Jan. *197
Mechanical sealer (e) ..... June *146
Sealer (e) ..... June *155
Unit seals, labels bags (e) ..... Apr. *167
Unit speeds sealing of slip-cover cans (e) ..... Oct. *187

Separation

Air jet separator unit (e) ..... Aug. *113
Continuous mechanical methods take over ..... Oct. *149
Electronic separation of nuts by High-speed sorters. E. Grosz ... Aug. *95
Magnetic drum separators (e) .. May *102
Sugar centrifugal separates continuously (e) ..... Oct. *185
Shaker unloads materials clinging inside bulk cars. T. S. Abbott ..... Nov. *97

Shipping

Cauliflower shipping savings (N) ..... Jan. 185
Compartmentized railway car ... Jan. *77
Corrugated paper bin package pays off in Western flour plant. H. A. Herzog ..... July *67
Corrugated paperboard place on the bottom of the freight car (N) Apr. 240
Device marks shipping cases on two sides (e) ..... Nov. *111
Loading dock shelters (e) ..... May *115
Quick cooling cuts fresh vegetable losses by packer. C. E. Wright ..... Jan. *94
Unit prints copy on shipping cases (e) ..... Jan. *113
Show guide for the Institute of Food Technologists ..... June *111
Shrimps—Crossland Fisheries quick freezes and cartons shrimp at sea. C. E. Wright ..... May 133
Sifting—Picking the proper screens for most efficient sifting. A. T. Templin (table) ..... Jan. *78

Sirups and molasses

Corn syrup line streamlines filling, closing and casing operations. I. C. Miller ..... May *61
Corn syrup wins place as pickle sweetener Fabian & Pivnick .. Mar. 97
Formula for making a sirup containing maple syrup ..... Dec. 192
Lactic acid from molasses (A) .. Dec. 156
Liquid sugar tank has hot-water system beneath it to control viscosity for handling W. J. Mathews. Jan. *98
Making chocolate syrup ..... Nov. 182
Maple flavored syrup becomes turbid ..... Apr. 221
Meter damage from cold syrup. Robert Korn ..... May *9
Powdered syrup mix ..... Feb. *192
Quality fruits with corn syrup. E. H. Wiegand ..... May *121
Vacuum syruper (e) ..... May *113
Size reduction ..... Oct. *157
Skid eases drum handling (e) ..... Apr. *161

Smokehouses

Boston meat packer modernizes and triples its output. J. V. Ziemba ..... Mar. *69
Sausages improved by separating the smoking function from cooking. C. W. Schmidt ..... July *80
Smoking meat electrostatically. Morse & Piven ..... Sept. *70
Sodium hexametaphosphate not beneficial to frozen cottage cheese (A) ..... Nov. 162
Sodium iodide—Struvite in fish canning with new techniques. McFee & Swaine ..... Dec. *67
Sorbic acid inhibits molds ..... Aug. 127
Sorting—Advances in separating operations ..... Oct. *149
Transparent belt conveyor with photoelectric stations sorts objects such as beans and nuts (P) .. Nov. *155

Sound waves

Ultrasonic brewing. E. D. Stewart ..... Apr. 183
Ultrasonic equipment in cooking operations at brewery in Germany. G. W. Schroder ..... Feb. *48
Ultrasonic vibration increases hop extraction (A) ..... Apr. 204

Soybeans

Improvements in soybean oil quality highlights fats and oils trends (N) ..... Feb. 229
Inversion of soybean oil inhibited by phytic acid (A) ..... Aug. 154
Oil extraction plant prevents flame hazards by instrument detectors ..... Jan. *96
Soy oil flavor stabilized with metal inactivators. J. C. Cowan (tables) ..... June 103
Spaghetti twist dinner in one package ..... May *149
Speed reducer (e) ..... June *163
..... Dec. *107

Spices

Formula for pumpkin-pie spice .. Aug. 171
Natural spices add much more than flavor. J. J. Frank (table) .... June *78
New spice-color test (N) ..... Jan. 181
Tenderizer and seasoning for meat packed together ..... Dec. *146
Sprinkler, controlled (e) ..... June *153
Stabilizers—Catalase plus ascorbic acid prevent oxidation of beer (P) .. June 204
Gum type stabilizers ..... June *105
Stack head to clean up vapors (e) .. Apr. *158
Stairs on hinges in aisles in winery. Merton Gassett ..... July *9

Standards

Bottlers' sugar standards ok'd. H. E. Korab ..... Mar. *82
Bread-softener ban (N) ..... June 229
National Research Council has cures for what ails standards hearings (ed) ..... June 160
Poly bread emulsifiers (N) .... May 204
Stapling machine for carton (e) ... July *102
Starch—Starches tailormade for users. T. A. White ..... June *95

Steam

Steam cleaner. W. C. Stretton .. Aug. *11
Steam condensate controlled by hoods over cooking kettles. Boglisch & Bartlett ..... Jan. *5
Steam traps (e) Mar. *109 (e) .. July *107
Steel—Stainless steel units for equipment ..... Nov. 179
Steel plate, copper-clad ..... Jan. 99

Sterilization

Agitating sterilizer speeds heat penetration in large cans (charts) .. Feb. *70
Aseptic canning improves corn .. Feb. *74
Bottled chocolate beverages sterilizer (e) ..... Nov. *107
Cold sterilization facts. W. M. Urbain pt 1 Feb. *45 pt 2 ..... Mar. *77
Cold sterilization involves radiation. W. M. Urbain ..... Oct. *86
Continuous sterilizer for sealed cans of food (P) ..... Nov. 158
Empty feed bag sterilization pays its way ..... June *51
Gamma radiations sterilize food wrappers. Kempe, Graikosk & Brownell ..... Nov. *55
Infra-red lamps sterilize caps above pasteurized jelly. George Garnatz ..... Mar. *9
Molasses sterilization for yeast manufacture ..... Dec. *80
Preventing off-flavors in irradiated food (A) ..... Feb. 203
Proper sterilization, storage protects non-acid foods (A) ..... Feb. 196
Radiation used to sterilize food (N) ..... Feb. 231
Schaefer plant makes sure plant is sterilized with chlorinated rinse ..... Nov. *69
Seams of cans sterilized separately to cut hot-holding time ..... Mar. *67
Soft X-ray sterilization of canned powdered milk (N) ..... Apr. 244
Sterilizer utilizes gas for cold process (e) ..... Aug. *99
Thermal engineering scores in new canning process. C. R. Havighorst ..... Feb. *76
Wash-water sterilizer ..... July 173
Sterilization see also pasteurization

Storing

Carbon dioxide control by cold diffusers cuts apple storage costs. Frank Kedenburg Jr. ..... Mar. *126
Carbon dioxide storage extends the life of frankfurters (A) ..... June 193
Cleaning compounds in handy bins. H. E. Korab ..... Sept. *9
Corners of palletized stacks protected by metal guards ..... Sept. *7
Electronic device "listens" for insects in stored grain (N) ..... Oct. 258
Freezer insulating procedure for warehouse of frozen orange juice ..... Sept. *11
Jet freezing of poultry—newest quick-freeze system. Edward Simons ..... Nov. *57
Know-how in processing modern chocolate products ..... July *96
Libby's 10 acre warehouse—oil-fired space heaters ..... Dec. *121
Panel scoring proved valid for evaluating stored fish (A) ..... Sept. 194
Pecan nut storage the year round. Woodroof & Heaton (tables) .. May *82
Preventing odor pickup by foods in storage (A) ..... Mar. 179
QM Food & Container Institute testing ration shelf-life (N) ..... Oct. 254
Radioactive test of fruit (N) .. July 189
Reflective insulation in fruit warehouse (A) ..... Nov. 166
Safe storage relative humidity and warmup. R. R. Haugh ..... Apr. *74
Salled eggs store poorly (N) ... Feb. 231
Suits to be worn by truck operators in frozen food warehouses .. Dec. *9
Struvite in fish canning stopped by new techniques. McFee & Swaine .. Dec. *67

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Subtilin plus mild heat does not control spoilage in milk (A).....Apr. 208

Sugar

Bottlers' sugar standards ok'd. H. E. Korab.....Mar. *82
Bulk granulated sugar by truck Apr. *73
Corn sweeteners help processors in many ways. R. F. Cohee Jr..June *74
Cuts sugar wafers (e).....Feb. *177
Evaluation of sugars (A).....Oct. 211
Explosion process for recovering sugar from beets (A).....May 158
Glucose from algae (A).....May 158
Hormoned sugar cane (N).....Nov. 193
How to plan bulk sugar handling. E. W. Meeker.....Aug. *129
Industrial television controls sugar cane on conveyors.....July *93
Lactic acid from corn sugar (A) Jan. 150
Liquid-sugar storage tanks protected by ultra-violet sterilizing lamps Oct. *9
Stay soft package.....Oct. *198
Trouble with sugar caking.....Feb. 222
Two-floor discharge from one scale. D. B. Bradley.....July *5
U & I Sugar Co. near Moses Lake, Wash. (N).....Dec. *195
Sulfur-spotting "nose" (N).....Oct. 260
Sunflower seeds, salted.....Jan. *138
Switches—Air-operated switch (e)..May *116
Panel automatically cuts in emergency supply (e).....Jan. *109

T

Table top for laboratory. P. W. Holder Nov. 8

Tanks

Aluminum tanks standard sizes (e) Dec. *100
Beer tank (e).....Apr. *167
Better tanks speed processing. J. T. Winslow.....Nov. *90
Burial vaults make ideal wash tanks. W. A. Free Jr.....Mar. *11
Car dome covers rubber lined...Oct. *7
Control prevents tank overflow..Apr. *13
Insulating for food quality and savings. M. F. Allen.....Sept. *62
Liquid-sugar storage tanks protected by ultra-violet sterilizing lamps Oct. *9
Milk tank tester (e).....Sept. 171
Rextangular milk tanks (e)....Feb. *169
Tank-type pressure filter (e)....Apr. *158
Taper-type beer tank (e).....Oct. 191
Three-way valve in wine reserve tanks. Joseph Certok.....Dec. *5
Water cooling aided by air mixing. J. C. Monk.....July 11
Tapioca—Starches tailormade for users. T. A. White.....June *95
Tarpaulins (e).....Sept. *173
Taste-tests—Consumers prefer cakes made with butter, bread made with low-extraction flour (A).....Jan. 149
Pickle sweetened with corn syrup taste tested. Fabrian & Pivnick Mar. 97
Taxation—Accounting your way to bigger profits.....Jan. *80
Bakery-product tax to defray farm support (N).....Oct. 256
Tea—Iced tea bottled.....July *146

Technology

Economics of technical progress (charts).....Oct. *72-81
Enticing more technical brains into food field (ed).....May 118
The technical man. R. E. Morse Nov. 96
Teflon cones employed in mechanical seal (e).....June *145
Telephone system between floors avoids errors. D. Bradshaw.....Nov. *7
Television—Sugar cane jam-ups prevented by industrial television in Hawaii.....July *93
Temperature—Grain temperature for bins (e).....Aug. *107
Thermometer dial, on safety stand. Frank Callinge.....July *9
Thermocouple head (e).....Oct. *195
Thermostat, rate-of-rise (e).....Nov. 99
Time and motion study—Roll panning operations required 14 men, new setup takes 4, output increased Jan. *64
General Foods close to 100% on package output efficiency. G. M. Woodruff (charts).....Dec. *64
Timer, electronic (e).....Dec. *99

Tomatoes

Color grading by electronics. T. J. Smith.....Sept. *53
Flavorseal coating adds life to prepackaged tomatoes. C. R. Havighorst.....July *127
Improved tomato packing (N)..Mar. 192
Machine speeds tomato harvesting (e).....Mar. *101
More precise grading with new sampling table. Desrosier, McArdle & Miles.....May *92
Problems in canning tomatoes..Mar. 174
Quality ripened tomatoes by "sparing the ice" (N).....July 190
Shipping tip (N).....Jan. 181
Soupy tomatoes.....Apr. 228
Tomato catsup formula.....Dec. 185
Tomato-paste process improved by new idea.....Feb. *73
Tomato sauce dehydrated premix is three way saver. Barton & Trauberman.....Nov. *79
Tomato sauce problem. Hodler, Livingston.....Dec. 178
Tool, power driven (e).....Aug. *103
Tractor, new cab over engine (e)...July *106
Transmission and motor (e).....Aug. *105
Transmission belt (e).....Oct. *193
Transmitter, pneumatic (e).....May *115

Trucks and Trucking

Battery-powered truck (e).....Mar. *111
Bottler installs fork truck-pallet system, boosts output, deliveries Jan. 127
Bulk granulated sugar by truck Apr. *73
Bulk tank truck for milk (e)...Oct. *187
Carnation Co. approves liquefied petroleum gas for its 210-truck fleet June *56
Clamping attachment on industrial truck (e).....Sept. *165
Couplers for handling trailers (e) June *146
Crate truck improved by swivel caster.....Aug. *7
Delivery truck (e).....Aug. *101
Dodge light truck.....Feb. *169
Elevating gate on truck (e).....Nov. *109
Engine cleaning eased by mobile crane. James Owens.....Apr. *6
Foil products exhibited in trailer (N) Nov. *194
Fork lift truck (e).....July *107
Fork-lift truck for narrow aisles (e) Jan. *105
Fork-lift truck subs for tractor (e) Feb. *173
Fork truck (e).....Dec. *107
Fork truck, rider type (e).....Apr. *169
Gasoline powdered trucks with special exhaust to kill fumes, handle dairy foods in unventilated basement Dec. *95
Hand truck has third wheel (e) July *117
Hand truck, wheel (e).....May *117
Hand trucking speeded with attachments and small pallets.....May *13
Ice cream truck with special low body.....May *135
Industrial truck, fork attachment (e) Sept. *163
Industrial truck with multi-prong attachment (e).....Dec. 105
Lift trucks light, compact (e)..May *107
"Low-bed" frame simplifies product handling (e).....Mar. *100
Materials Handling Exposition in Philadelphia (picture feature) Aug. *79
Metal guards protect palletized stacks.....Sept. *7
Partioned pallets speed loadings of bottles of various sizes.....Nov. *135
Payload boosting trailer undercarriage.....Sept. *68
Philadelphia dairy introduces warehouse on wheels. I. C. Miller Nov. *86
Plastic milk truck (N).....Nov. *193
Prunes filled into wooden bins and trucked to plants where fork trucks handle the bins.....Dec. *83
Radiant heat on truck floor.....Feb. *64
Radiator guard has many assets. James Owens.....Mar. *9
Rig speeds tire-chain repairs. James Owens.....Aug. *5
Road repairs in jiffy time.....Nov. 7
St Joseph, Mo. meat packer delivers in own refrigerated fleet...Aug. *96
Square aluminum containers increase poultry shipping loads. Gene Iannelli.....Mar. *95
Tank truck equipped with milk receiving unit (e).....Apr. *159
Tankers versatile-plus in carrying liquid foods.....July *71
Under-seat switch saves motor fuel. Richard Lenski.....Mar. *13
Walkie truck (e).....Mar. *107
Walk-in truck speeds deliveries of ice cream.....Jan. 12
Wheels for hand truck (e).....June *149
Tubing, seamless light (e).....Mar. *109

U

Ultrasonics

Cooking operations in German brewery. G. W. Schroeder.....Feb. *48
Food automation nears. L. E. Slater Dec. *73
Ultrasonic brewing. E. D. Stewart Apr. 183
Ultrasonics employed by emulsifier (e).....June *147
Ultrasonic processing moving from the laboratory to the food production line.....Oct. *87
Ultrasonic radiation in food industry (A).....Aug. 166
Ultra-violet rays—Liquid-sugar storage tanks protected by ultra-violet sterilizing lamps.....Oct. *9
Standard for ultraviolet (N).....Mar. 190

U. S. Army Foods

Bread made with whole wheat qualities.....Apr. *79
Georgia Station launches ration shelf-life tests (N).....Oct. 254
QM augments statistics (N).....Sept. 215
U. S. Navy foods—Tomato sauce dehydrated premix is three way saver. Barton & Trauberman.....Nov. *79

V

Vacuum

Cooling fruits and vegetables (A) Feb. 197
Frankfurters packed in vacuumed bag guards quality. Bert Rabinowitz.....Nov. *133
High vacuum evaporation sets pace Oct. *143
High-vacuum packager keeps meat longer.....Sept. *97
Puffs foods continuously in special vac process. I. C. Miller....Dec. *68
Vacuum cleaner motor protected against flooding (e).....Mar. *111
Vacuum-cooling fresh vegetables Nov. 183

Valves

Ball-in-cage as closure (e)....Mar. *113
Contrivance keeps valve open. L. G. Davis.....Mar. *13
Dial on valve indicates line flow Nov. *7
Diaphragm valve (e).....Sept. *163
Handwheel for valves (e).....Aug. *100
Improvised valve corrects spillage June *13
Quick-acting float control. D. A. Williams.....Jan. *5
Three-way valve in wine reserve tanks. Joseph Certok.....Dec. *5
Valve has neoprene seat (e)...July *103
Vanitrope—Better artificial vanilla flavor. C. A. Tyler (tables).....Jan. *62

Vegetables

Green Giant's fifty years of canning progress. L. E. Slater.....May *66
Proportioner for mixed vegetables. Albert Schuchardt.....Feb. *11
Puffed powder from fruit and vegetable juices. Strashun & Talburt Mar. *59
Quick cooling cuts fresh vegetable losses by packer. C. E. Wright Jan. *94
Vacuum cooling of fruits and vegetables (A).....Feb. 197
Washer for fruit and vegetables improved. Charles Bowman....Sept. *6
Wire screen flights improve cooler. Jordan & Davis.....Sept. *7
Vegetables see also the name of vegetable
Vibrator, air (e).....June *157
Vibrators—Selecting and installing vibrators. Frederick Marich.....July *77

Vinegar

Special alcohol formula makes best vinegar (A).....June 204
Three giant robot-controlled generators turn out vinegar in volume. L. E. Slater.....July *88
Wine vinegars marketed in cruets Mar. *142
Viner, portable (e).....Mar. *107
Viscometer, home-made. P. A. Williams Nov. *11
Viscosity measured (e).....Oct. *191
Viscosity of liquid sugar controlled by hot-water system beneath tank. W. J. Mathews.....Jan. *98

Vitamins

Cobalt 60's toll of vitamins in dairy products (N).....Dec. 196
Continuous air dehumidification halves batch drying time of vitamin powders. E. W. Gifford..Nov. *129
607 new vitamin (N).....Jan. 181
Synthetic vitamin A aids food fortification. Bauernfeind, Rokosny & Siemers (tables).....June *81

W

Washing

Control saves water, curbs splash. K. C. Holgate.....July 7
Detergents effective in removing mold from fruit. R. D. Haynes & others.....Mar. *87
Mechanical washer with electronic control (e).....Nov. *100
Washer for fruit and vegetables improved. Charles Bowman...Sept. *6
Washer to clean cases (e).....Mar. 111
Washing see also Cleaning

Waste Disposal

Big gains through waste reduction H. Heukeleklian.....Oct. *137

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents. (N) News.

Citrus wastes may yield new profit in by-products (N) ....Feb. 232
Effect of chlorine in water on corrosion of metals (A)....Apr. 201
Exchange Lemon Products balances multi-product operation by their waste-salvage process. Holton & Havighorst ....June *58
Flowsheets of citric acid from lemons June *162
Model waste-disposal plant for Colorado brewery. Frank Pitman Nov. *67
New uses for shells, pits (N)...Oct. 253
Pear waste used to produce feed and industrial alcohol (N) ....May 199
Waste from a line of salads...Aug. 178
Water—Solenoid valve in pipe prevents wash-water losses in meat plant. J. R. Ferguson....Nov. *5
Wants to conserve water....Aug. 177

Water Treatment

Fluorided waters (A) ....Aug. 162
How to nip those beverage contaminators. N. F. Insalata....Apr. *70
pH control ups quality of beer, boosts process yields ....Mar. *66
Regeneration method improves feed water ....Feb. 62
Re-use of water halves cannery consumption (A) ....Apr. *201
Three new products....Sept. 175
Treating water with ozone (A)..Jan. 158
Unit water treater (e)....Dec. *111
Water demineralizer. Anderson & Savino ....June *7
Wax coating guards quality of prepackaged tomatoes. C. R. Havighorst July *127

Weighing

Auto-unit produces weight control graphs (e) ....Dec. *101
Continuous unit weighs, moves powdered materials (e) ....Jan. *109
Uniformity control of candy trims costly variation losses. E. D. White Mar. *80
Weight recorder (e) ....Aug. *109
Welding—Arc welder (e)....Dec. *109
Wheel, demountable (e) ....Nov. *113
Whey—Fortified cheese wheys support yeast growth (A) ....July 154
Glass pipes speed whey handling from cheese plant ....Mar. *96
Wild rice tamed....Mar. *94, June *190

Wines

Bacteria fighter in wine (N)...Oct. 260
California winery uses disintegrator to replace crusher, raises yields, halves labor ....Mar. *59
Cask-sampling spigot. Joseph Chertak ....May *5
Clarified with bentonite....Sept. 209
Offset agitator improves mixing Aug. *11
Presence of sorbitol in wine is evidence of adulteration (A)....July 164
Solera system for aging sherries.Dec. 190

Winery aisle cleared by lifting stairs. Merton Gassett ....July *9

Wrapping

Bacon wrapping machine (e)..Sept. *160 Nov. *103
Gamma radiations sterilize food wrappers. Kempe, Graikoski & Brownell ....Nov. *55
Indexing of overwrap controlled Aug. *9
Investigating bag-borne bacteria. W. L. Owen ....Jan. *57
Machine wraps cakes (e)....Mar. *100
Overwrap unit for candy (e)...July *109
Package engineering pays 207% in cheese plant. C. R. Havighorst Apr. *90
Packaging Exposition in Chicago July *83
Polyethylene coated bread wrapper (N) ....Feb. 229
Prepackaging of meats integrated by Morrell. Don Reedquist....Sept. *74
Resilient papers ....Sept. 175
Vented wrap for poultry....Sept. *186
Wrapper, adjustable for cake size (e) Aug. *107
Wrapping machine (e) ....June *155

X

X-rays—Soft X-ray sterilization of canned powdered milk (N)...Apr. 244

Y

Yeast

Flowsheet for yeast....Dec. *80
"Last word" yeast plant in England Dec. *80
Yeast as an antioxidant....Dec. 182
Yogurt—Going about making yogurt Jan. 172
